P R E F A C E .

THE propriety of quoting the vernacular names of plants, has been questioned by several Indian Botanists and by none in more condemnatory terms than by Dr. Wight.* The objections urged, are the uncertainty and fluctuating character of local terms, the mistakes made by persons ignorant of the language of the country in assuming the answers of Natives to be names which were no names, the number of diverse names given to the same plant, the mischief which might be occasioned by such misapprehensions, &c. But it cannot be denied that many of the commonest and most useful plants are known by definite and

* *Prodr.* pref. p. xxiii. After stating that he discards all native names in concurrence with the opinions expressed by Wallich and Carey in their edition of the *Flora Indica*, he adds that "the natives seem to have no rule either for nomenclature or orthography ; they have no means of producing an uniformity of names, and very frequently confound one name with another, so that our inserting these would only tend to mislead, in place of proving an aid in the investigation of an unknown plant, by one unacquainted with botany. Owing to very different plants having the same native name, we have occasionally known dangerous mistakes originated, by erroneously substituting active medicines, when those of an opposite kind were intended, and vice versâ. On these last grounds particularly, we not only think it useless but injurious, nay even dangerous, to insert those names, unless the natives themselves shall have discovered some method by which a plant shall be known throughout by but one name, and that name shall be restricted to the individual plant."

But Wallich simply states that the names given to plants by natives of Nipal are in general very uncertain and fluctuating and that he only uses them when he has reason to be tolerably satisfied as to their correctness, and accordingly he does insert

generally received appellations, an acquaintance with which must often prove useful to persons ignorant of botany and even to those commencing the study of that fascinating science, at a distance from books of reference and other assistance.

It must be borne in mind that many plants are spread over the whole of the Peninsula and are common to provinces where the dialects in use differ as much from each other as do French and Spanish and Portuguese and Italian. It cannot be matter of surprise therefore to find a different, though perhaps a cognate name, attached to the same object in each. Even within the range of one dialect, the same name will be pronounced differently by the educated and the ignorant, and this, owing to the greater diversity of races in India, occurs to a greater degree here, than is found in more civilized countries. Such differences of pronunciation and of local use, exist to a very considerable extent even in our own country, between the people of different counties and still more between those of England and Scotland, Wales and Ireland. But this is no reason why such words should be neglected. If their identification secured no other purpose, it would at least prove useful to the philologist. Few of the names now brought together, exist in the best dictionaries at all, and many of those that do find place in them, are erroneously explained.

On this ground alone, the formation of such lists as that now submitted, is deserving of encouragement.

To the merchant, to the officers of the Department of Public Works and the Railway, to European settlers engaged in agriculture or trade and to the traveller whose time is limited,* the aid afforded by such a manual cannot be slight.

several. In like manner, Carey attributes the occurrence of the mistakes so often found in the vernacular names assigned to plants, to the fact of their having been taken down from the mouths of natives, by persons more or less ignorant of the language or dialect spoken. But neither does he propose to discard them altogether, rather he agrees with Wallich that they should be added whenever there is reason to believe them to be correct.—*Flor. Ind. Ed. Carey*. II. 99, 415, notes.

* "And in this founde wee oftymes muche trouble and vexation, with moreover losses, bothe of precious tyme and lucre. *Fyrste*, thatt wee coulde never aske in ^e/_y Indian tongues for suche herbes, or fruites, woodes, barkes, or gummes, as wee

But even as regards scientific purposes, other botanists are found to view the subject in a very different light from Dr. Wight.

Dr. Royle, in his observations on the Provincial Exhibitions of the Madras Presidency, expressly recommends that native names should be introduced into the proposed botanical Manual, for Southern India.*

"I have always found," he observes, "that such (plants) as are of use and are therefore important, have names by which they are well known to the Natives. These names no doubt differ in different districts and applying them may be more troublesome in the Madras Presidency than elsewhere, from the languages differing so much in different parts, but this very fact makes the task more necessary."

The opinion of William Griffith, eminent among the many eminent botanists of India, also deserves to be cited. In a letter to Mr. Marshman written shortly before his death, he enumerates the merits of Voigt's catalogue, among which he particularizes that "it gives in all definable cases, the vernacular names, and these appear to have been obtained with no common care and consequently to lose in a great measure, the usual inapplicability."

One great source of confusion is found in the absence of a recognised standard for representing native sounds in an English dress. The same word is spelt in as many forms as there are writers, each according to his individual conception of the sound uttered by the speaker, so that the recorded results can hardly be recognised as applying to the same thing.

The persons moreover from whom such information is derived,

knewe full well, by experience in sundrye other partes, to bee wholesomme, (many of our crewe lyinge sicke at this tyme,) or savorye, or usefulle to trafficke withall. Nexte, thatt when anye were shewne us, we coulede in noewise tell, from $\frac{e}{y}$ names given toe them by $\frac{e}{y}$ Gentoos, whether or noe $\frac{e}{y}$ like were already knowne in *Europpean* countryes: And yett these partes doe myghtylie abounde with herbes and woodes of sovraine virtew."—*Master Richarde Kynge, his travells, and voyages, and traffickes, in foraygne countryes, in the Shippe Tamburlan. Lond. MSS. fol. 1634.—Title to Pid. Ind.*

* In conformity with Dr. Royle's advice such a manual has already been undertaken and is now in course of preparation by Mr. Cleghorn, the late Professor of botany.—*Mad. Jour. Lit. and Sc. V. II. N. 5. p. 78.*

are frequently ignorant illiterate men, whose faulty enunciation of a name produces a sound very different from that of the same word correctly spoken. This is particularly the case with the wild races inhabiting jungle and forest tracts, such as the *Yánádís* of Nellore, the *Chenchus* of Guntoor, the *Kóyas* of Rajahmundry and the *Konda Doralu* of Vizagapatam. These classes possess a very extensive and accurate knowledge of the vegetable products of their several ranges and are generally able to apply a name to every plant or tree, in any wise remarkable. But as a matter of course, their pronunciation is rude and barbarous and frequently much corrupted. The particular term employed by one tribe, is likewise often peculiar to themselves and differs from that in use among the others. Still wherever such a name is found to prevail throughout a particular tract, a knowledge of it will prove useful.

In preparing the list which serves as the foundation of the present catalogue, the vernacular names were always written down in the native character, from the mouths of the speakers, by a native of the district. These have been tested by a reference to the best native dictionaries and corrected where possible. The same process has been applied to Roxburgh's and other names introduced. But many are without doubt still faulty, several may probably be found to be insufficiently established and many more remain to be added. On several occasions, names were given to unknown plants, the botanical position of which was never ascertained and consequently this want remains still to be supplied. The list admits of being greatly enlarged, for neither leisure nor opportunity have been sufficiently at command, to allow of a systematic collection being made.

It is hoped however that by the plan now followed, a beginning has been made for the preparation of a more accurate catalogue, on correct principles, and as such, it is offered to those who are interested in the scientific or economical study of vegetable productions.

The catalogue consists of two parts :—

- I. A list of Telugu names.
- II. A list of Sanscrit names with their Telugu equivalents.

The sources from which the names in Part I, have been derived are :—

- 1st. A list made during a residence of five years in the Northern Circars.
- 2d. A list prepared by Lieut. Beddome, Assistant Conservator of Forests, principally in the upper valley of the Godavery.
- 3d. Names found in Roxburgh's *Flora Indica* and *Coromandel Plants*.
- 4th. Names occurring in Heyne's *Tracts on India*.
- 5th. Names found in Piddington's *Index of the Plants of India*.*
- 6th. Names met with in Ainslie's *Materia Medica*.

Part II. has been drawn entirely from a native work in *M.S.* called the *Sabdārtha-kalpataru*, a Sanscrit and Telugu Dictionary compiled by Mámidi Venkayya, a learned Komati of Masulipatam, in the early part of the present century. It consists of three large folio volumes and was found in the possession of the author's grandson, the late Mámidi Nága-bhúshanam, who kindly permitted me to consult it during my residence at Masulipatam in 1851.

The following letters prefixed to a name indicate the authority on which it is inserted :—

B—Mr. Beddome's List.

R—Roxburgh's *Flora Indica* and *Coromandel Plants*.

P—Piddington's *Index*.

H—Heyne's *Tracts*.

S. K.—The *Sabdārtha-kalpataru*.

Br.—Brown's *Dictionary*.

The letter S. following a word intimates that it is of Sanscrit origin.

Those without prefix, are from my own list and when it includes names also occurring in other works, the absence of the letter indicates that they have been noted independently of such authorities.

* The number of Telugu names in Piddington's list is 928, of which 445 are taken from the *Flora Indica* leaving 343 derived from other sources, but many both of the former and of the latter are wholly unrecognisable.

The first column contains the name in the vernacular character—the second its equivalent in Roman letters according to Sir W. Jones' principles as modified by Wilson and the latest authorities—the third gives the botanical names, and the fourth is devoted to miscellaneous remarks.

The botanical nomenclature has been chiefly, though not altogether based on Voigt's *Hortus Suburbanus Calcuttensis*, with the addition of references to the most accessible local authorities, indicated by the following abbreviations:—

R.—Roxburgh's *Flora Indica*, 3 vols. 8vo. Serampore, 1832; with the *volume* in Roman and *page* in Arabic numbers.

R. Cor.—Roxburgh's *Coromandel Plants*, London. 1795-98-1819; with the *number* of the plate only.

W. & A.—Wight and Arnott's *Prodromus Floræ Peninsulæ Indiæ orientalis*—London. 1834; the reference being invariably to the *number* of the species.

W. Ill.—Wight's *Illustrations of Indian Botany*, 2 vols. 4to. Madras 1840-50; the reference being, unless otherwise specified, to the *No.* of the plate.

W. Ic.—Wight's *Icones Plantarum Indiæ orientalis*, 6 vols. 4to. Madras. 1840-1853. The reference is always to the *No.* of the Plate.

W. Contr.—Wight's *Contributions to the Botany of India*—London 1834; the reference is to the *page*.

Heyne.—Heyne's *Tracts on India*, 4to. London, 1814—the reference being to the *page*.

O'Sh.—O'Shaughnessy's *Bengal Dispensary*, Calcutta. 1844; the reference is to the *page*.

Ains.—Ainslie's *Materia Medica of Hindustan*, 4to. Madras. 1813—the reference is to the *page*.

Rheede.—The *Hortus Malabaricus*—the reference being to the *part* or *vol.* in Roman and to the *plate* in Arabic numerals.

Br.—Occasional references, will be found to Mr. C. P. Brown's Telugu and English Dictionary, Madras 1852, with a direction to the *page* at which the word quoted, occurs : and

H. to Profr. Wilson's Sanscrit Dictionary, 2nd edition, 4to. London. especially in Part II, where in like manner the figures noted are intended to indicate the *page* on which the word is found.

అంతరతామర - (అకాశ)	Antara támara (Ákása támara.)
S K అంతరవల్లి శే.	Antara vallí tige.

The elements of the Sans. word signify "fire-climber." W. 11. says it is a species of *Karantia* (*Pongamia*). But the only climber in this genus has pink flowers. The name is better suited to the description of *Butea superba* given by R. iii. 247 who specially refers to the dazzling brilliancy of its *flamboyante* color. W. also assigns this name to *Clerodendron siphonanthus* R. Br. (*Omieda* L.) to which it seems to be altogether inapplicable.—Br. 4.

The citation of Rheede's figure is from W. and A. Prodrum—but according to Dillwyn, Rheede's plant, is *Glilibertra Nalagu*.

This name is applied to any floating, large-leaved water-plant.

The only Sans. syn. found in the Dict. is 'Akása valli, W. 103, which is explained to be *Cassya fil*—

S K బకళా-(ఎర్ర నువ్వుడి.)	Bagalā, S. (Erra gummadī,) ...	CUCURBITA sp. ?	Roxb. is the only authority—but Br. calls it పక్షిపాపి <i>Pagga patti</i> , p. 527.
R బక్లవట్టి-(నీటికన్నెరు.)	Bagga patti (V. Nīti gannēru,) ...	LIMNOPHILA RACEMOSA, Benth.—W. Ic. 861.— Cyrilla aquatica, R. iii. 115.	Br. 524.
Br. బకానుచక్క- (బుక్కా- పు చెట్టు.)	Bakānu chakka (V. Bukkapu chettu,) ...	CÆSALPINIA SAPPAN, L.	The Sanscrit syms. are <i>Baka</i> —W. 727 and <i>Pasūpata</i> to which the same signification is attached by W. in his first edition, p. 528.—Br. 525.
S K బకపుష్ప పుచెట్టు-(అగిశి) [తీర.]	Bakapushpam (S.) chettu (V. Agisi,) ...	AGATI GRANDIFLORUM, Desv. var. albiflorum.	W. 742, has <i>Valbaja</i> which he makes <i>Eleusine Indica</i> , Gaertn.—Br. 568.
పాలబందితీర- (చెవులపిల్లి)	Bālabāndi tīge (Chevulapilli tīge,) ...	IPOMEA PESCAPRAE, Sweet.—Convolvulus pescap. R. i. 486; C. bilobatus, R. i. 485.— <i>Rheede</i> , xl. 57.	A doubtful name.
S K బల్బజము-(మొదవగడ్డి.)	Balbajamu S (V. Modava gaddi,) ...	IMPERATA CYLINDRICA, Beauv.	Commonly called the American alooe.
R బలికొమ్మ- (నల్ల ఉడత-తె)	Bali komma (V. Nalla udata & Tel. la udata,) ...	OPILIA AMENTACEA, R. ii. 87.—W. Ill. 40.	The same name is also applied to <i>Argemone Mexicana</i> (V. <i>Bramha dandi</i>) and at Simhachalam the Konda Dorah gave it to <i>Paratropia venulosa</i> . In Piddington's index, it is said to be <i>Arum</i> (<i>Colacasia</i>) <i>formicatum</i> R. iii. 501.—W. Ic. 789-92—
బలురక్కి-న. [ల ఉడత]	Balu rakkisa, ...	FOURCROYA CANTALA, Haw.—Agave Cant. R. ii. 167.	Br. likewise, 567, makes it an <i>Arum</i> (<i>Colacasia</i>) <i>macrorhizon</i> ? But his description seems to refer partly to the common alooe.

Fourcroya Cantala or perhaps to its con-
gener *Fourcroya tuberosa*, confounded
with *Colacasia Indica* and *Remusatia viva-
para*, R. iii. 496, 498, all of which are
propagated by tubers hanging from the
stalk—and partly to *Spinifex squarrosa*
(V. *Ravanásurum mīśālu*.) the prickly
spherical involucre of which are rolled
and whirled over the sands of the sea-
shore by the wind, all along the Coroman-
del coast.—Ps. lxxxiii. 13.

The word *kīra* signifies “vegetable.” The
use of the plant occurs in a verse of the
Bhārata where Krishna having been fed
by a hunter or savage, his attendant asks:

శాల్యోదకాపూషకసూపంబులాపాం

చాలికుండడుకబలునుకూర॥

Is the *Balusa kīra* which you received from
Pānchālikudu equal to *śālyodanām* (fine
rice) *apīka* (cakes); *śāka* (vegetables,
śīpam (pulse) ?

It is a common proverb also—పాణం

పుంబెబలును ఆకుతిని బ్రతకవచ్చును.

Whilst life remains, I can, subsist on the
leaves (*kīra*) of the *Balusa*:—implying sub-
mission to any necessity however grievous.

Br. 523.

The name occurs in Br. 521 with the expla-
nation “a hard yellow wood like mango
wood.” I heard the preceding name (with a
soft *d*) frequently applied to *Naucllea cor-
difolia* in the Rajahmundry Hills and from
its resemblance to its congener *Hyme-
nodiction excelsum*, the two may have
been confounded under the same name.

CANTHIUM PARVIFLORUM, Lam.—R. i. 534;

R బండిమురుగుడు - (కరవడ)	Bandi murugudu	(<i>V. Karra vadala</i> .)	GETONIA FLORIBUNDA, R. ii. 428; Cor. 87.—W. and A. 975.	

బంకబడు - (చినమండల)	Banka baddu (V. China mandula- nári.) ...	VITIS LINNÆI, Wall.—W. and A. 417.	This name was only found among some Konda Dorali in Vizagapatam.
Br. బంక చెట్టు.	Banka chettu, ...	ZIZYPHUS, Sp.	The Sans. syns all refer to the jujube-tree, also to the cotton plant, <i>Gossypium</i> —See Pt. II. Badari—W 598.—194.—Br. 517.
బంకనక్కెర-(నక్కెర.)	Banka nakkera (V. Naktera.) ...	CORDIA MYXA, L.	The word <i>banka</i> signifies “viscous.”—Br. calls the plant <i>P. crystallina</i> , but there is no such species and the word <i>pávili</i> does not apply to <i>Trianthema crystallinum</i> .
Br. బంక పావలి.	Banka pávili, ...	PORTULACA, Sp.	
బంతి చెట్టు.	Banti chettu, ...	TAGETES PATULA, L.—R. iii. 434.	
బాపనబూరి-(పిట్టపిళ్ళినెక.)	Bápanabúri (V. Pílla pisinika.) ...	EHRETIA BUXIFOLIA, R. i. 598; Cor. 57, also E. aspera R. ib; Cor. 55.	Br. 643 enters this name with a mark of doubt—but it is established by general use.
బాపనముప్పి-(కొటికి.)	Bápanamushí (V. Koliti.) ...	OLAX SCANDENS, R. i. 163; Cor. 102.—W. and A 314.	A doubtful name.
R బరగడం.	Baragadam (V. Barapatálu.) ...	INDIGOFERA GLANDULOSA, Willd.	
Br. బారంకెచెట్టు.	Báranki chettu, ...	BUTEA SUPERBA, RP	Br. 589, states this to be the same as <i>angá-ravalli</i> , q. v.
బరపటాలు.	Barapatálu, ...	INDIGOFERA GLANDULOSA, Willd.—R. iii. 372. —W. and A. 620; Ic. 330.	It abounds in the N. W. parts of Rajah-mundry—Boxbs. name <i>Baragadam</i> appears to be a mistake. In Masulipatam, the same Telugu name is given to <i>I. tri-foliata</i> —W. and A. 628.—Ic. 314.—R. iii 373—the seeds of which are also used for food. Br. has the word <i>Barapatálu</i> which he renders erroneously “a kind of grain”. p. 550.
S K బర్భారము-(తుమ్మ చెట్టు.)	Barbáramu—S (V. Tumma chettu.) ...	ACACIA ARABICA, L.	Br. 561. This word tho’ well known in the south is not found in Wilson, but V. Gósa-rínga, W. 302.
R బహిఁస్సు.	Barhissu—S, ...	IMPERATA CYLINDRICA, Beauv.—Saccharum cyl. R. i. 234.	Br. 563.
Br. బారిజము.	Bárijamu } (V. Báridapú } Barjapu chettu chettu.) ...	ERYTHRINA INDICA, Lam.	“Moochy wood” Br. 593 “Bastard teak” 1280. The latter term <i>Chiri téku</i> is applied to several kind of trees with large leaves—on the Nagari Hills, the Yánádis give it to <i>Dillenia</i> (now <i>Wormia</i>) <i>bracteata</i> , W. Ic. 358.
Br. బారపుచెట్టు.	Bárapu chettu } చెట్టు.)

S K భజజవత్రి చెట్టు.	Bhujapatri chettu,	BATATAS PANTICULATA, <i>Ch.</i> —Convolvulus pan. <i>R. i.</i> 478.	The large round tuberous root is like a <i>chakra</i> or wheel, whence probably the name. It must not be confounded as it sometimes is, with <i>Bhāṣarkara</i> . <i>V. Putta-tige</i> , <i>Remark.</i>
S K భూర్జము.	Bhūrjannu, S.	...	BETULA BHOJ-PATRA; <i>Wall.—Royle Ill.</i> p. 343.	A Himalayan tree, the leaves or bark of which are used to cover the baskets of Ganges water sold by itinerant pilgrims. Heyne, 134. erroneously calls it a <i>Nepeta</i> . <i>W. 625</i> — <i>Br.</i> 643.
S K భూరుండి-(వేలుముడి.)	Bhūrundi—S. (<i>V. Tēlu māṇi</i> ,)	...	V. preceding name.	<i>W. 625</i> — <i>Br.</i> 1266.
భూశకృత్-ర- (మొరిసిక-పుట్టతీర.)	Bhū-śarkara, (<i>V. Morinika & Putta-tige</i> ,)	...	TIARIDIVM INDICUM, <i>Lehm.</i>	The sweet tuberous roots, dried and reduced to powder, are used medicinally for making a cooling drink.
S K భూస్త్వణం-(చిప్పగడ్డి.)	Bhū-strunam—S. (<i>V. Chippa gaddi</i> ,)	...	NIEBUHRIA OBLONGIFOLIA, <i>DC.—W. & A.</i> 79.—Capparis heteroclita, <i>R. ii.</i> 570.	<i>W. 625</i> — <i>Br.</i> 645.—Heyne, 138, applies the term to a sp. of <i>Asclepiad</i> .
భూతాలబైరి.	Bhūtāla bhairi,	...	ANDROPOGON SCHENANTHUS, <i>L.</i>	The name signifies "demon-driver" or "devil goad"—and sticks made of it are carried as a protection against evil spirits. The tree is not uncommon. A plant of it is now growing in the Agri. Hort. garden at Madras.
భూతాంకుశం.	Bhūtāmkusam, S.	...	CROTON OBLONGIFOLIUM, <i>R. iii.</i> 685.	
భూతులశి.	Bhū-tulasi,	...	OCIMUM BASILICUM, <i>var.</i> and PILOSUM, <i>R. iii.</i> 16.	

TELUGU NAME.		BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.		
బొబ్బిల్లు - (అలచందలు.)	Bobbarlu (<i>V. Alachandalu</i>),	DOLICHOS SINENSIS, L.	This name is explained by Br. 633, to be "the whispering larch tree"; such a definition may apply to the <i>Casuarina</i> , but we have never heard the name.
బొబ్బిలి చెట్టు.	Bobbili chettu, ...		
బోడచంద్ర - (ఉండ్ర - వెంట్ర.) [డి.]	Bōḍa chandra (<i>V. Undra and Ventrā</i>), ...	MIMOSA RUBICAUDIS, Lam.	This name was given by the Konda Doralu and means the small or bare <i>Chandra</i> (<i>Acacia Sundra</i> .)
బోడమామిడి - (బ్రహ్మ మే)	Bōḍa māmidi (<i>V. Bramha mēdi</i>), ...	FIGUS OPPOSITIFOLIA, R.	This word is found in R. iii. 561, but seems very like a mistake for <i>Bramha mēdi</i> , the true name. The Konda Doralu at Simhachalam however called it <i>Bōḍa chettu</i> .
బోదంకి చెట్టు.	Bōḍanki chettu, ...	BALSAMODENDRON AGALLOCHA, B. Roxburghii, Arn. — <i>W. Ill.</i> i. p. 185. — Amyris Commiphora, R. ii. 244.	This shrub was found on the rocky hills in the valley of the Krishna opposite Bezvada with the Telugu name in col. 1. The botanical name is taken from Voigt, who refers to the note in W. and A. at page 96 of the prodr. and to R. Hort. Bengh. p. 28. This name was found about Pálakonda in Vizagapatam
బోడంటు చెట్టు.	Bōḍanta chettu, ...	BAUHINIA PURPUREA, L. — R. ii. 320. — <i>W. and A.</i> 915. — <i>Rheede</i> , i. 33.	Among the San. syns. only one <i>Kēḍarāḥ</i> (not <i>Kēḍara</i> as written in S. K.) is found in W. 247, "the name of a plant."
బోబోదారశృంగి చెట్టు.	Bōḍāra sringi chettu, ...	} 1 STEMODIA VISCOOSA, R. iii. 94; <i>Cor.</i> 163. — <i>W. Ic.</i> 1408. } 2 SPHERANTHUS HIRTUS.	V. next word.
బోడనరం.	Bōḍasaram, ...		
బోడతరపు చెట్టు.	Bōḍatarapu chettu, ...	SPHERANTHUS HIRTUS, Willd. — <i>W. contr.</i> 11; <i>Ic.</i> 1094. — S. mollis, R. iii. 446. — <i>Rheede</i> , x. 43.	R. distinguishes between <i>S. mollis</i> and <i>S. Indicus</i> as being one with, the other without scent—but Wight unites them. In Voigt, they have distinct Bengali names.
బోడచెట్టు - (మేడి చెట్టు.)	Bōḍa chettu (<i>V. Mēdi chettu</i>), ...	FIGUS GLOMERATA, R. iii. 558. — F. racemosa, Willd.	This name, (as well as <i>ali</i> and <i>mēdi</i>), is applied indiscriminately to various kinds of <i>Ficus</i> but most frequently to <i>F. glomerata</i> .

బొడమమిడి - (మరుమా [మిడి])	Bodda mamiḍi (V. Maru māniḍi), ...	CUPANIA CANESCENS, Pers.—Molina can. R. ii. 243; Cor. 60.—W. and A. 386. MACARANGA ROXBURGHII, R. W. in Ic. 1883. —Osyris peltata, R. iii. 755.—W. Ic. 817.	These names are somewhat doubtful.
Br. బొడ్డిచెట్ట.	Boddi chettu, ...		Br. inserts this name but does not state on what authority. It is also found in Piddington's Index.
బొడ్డికూర.	Boddi kūra, ...	} RIVEA HYPOCATERIFORMIS, Ch.—Lettsonia uniflora, R. i. 495.	The leaves are used as a vegetable in the south, as are those of <i>R. Bonia-nor</i> in Bengal, Voigt. The Sans. syns. in Pt. II. <i>Avēgi</i> , W. 123 and <i>Junga</i> , 353, are said to be <i>Argyrea argentea</i> , Ch. The buds of <i>Calonyction</i> and some sp. of <i>Ipomea</i> , especially <i>I. reptans</i> , are also eaten as vegetables (<i>kūra</i>).
SK బొడ్డికూర.	Boddi kūra, ...		
బొడ్డుకూర.	Boddu kūra, ...	PORTULACA TUBEROSA, R. ii. 464.	
బొడ్డుమల్లె: [బిలికూర.]	Boddu malle, ...	JASMINUM SAMBAC, Ait. var. plenum.—R. i. Br. 677. 88.—Rheede, vi. 50-51.	
బొడ్డుపాచిలికూర (గొంకపా kūra.)	Boddu pāvili kūra, (V. Ganga pāvili kūra,) ...	PORTULACA OLERACEA, L.—R. ii. 463.	
బొడ్డుతుంక.	Boddu tunga, ...	HYMENOCHEATE GROSSA, Nees.—W. contr. 110. —Scirpus gros. & maximus, R. i. 231.	
B బొజ్జ - (తంకెడుమాను.)	Bōja (V. Tangēdu mānu,) ...	INGA XYLOCARPA, DC.	
బొక్కడి.	Bokkadi, ...	EHEETIA, sp.	
బొక్కెన.	Bokkena, ...	ZAPANIA NODIFLOEA, Lam.—Lippia nod. Rich. —Rheede, x. 47.	
బొక్కడు.	Bokkuḍu, ...	HYDROCOTYLE ASIATICA, R. ii. 88.—Rheede, x. 46.	So called at Pithāpūr but the propriety of the name is doubtful.
SK బొల్లిబానర.	Bolli brāsara, ...		Only one of the Sans. syns. <i>Karṇasp'hōta</i> occurs in W. 196, with the explanation, "a sort of creeper." The etymon is <i>kārṇa</i> the ear and <i>sp'hōta</i> a boil, showing it to be a remedy for ear-ache.
జొంతు జెముడు - (బొంత [జెముడు])	Bomma jemuḍu (V. Bonta chemuḍu)	EUPHORBIA ANTIQUORUM, L.—R. ii. 468.— W. Ic. 897-1863.—Rheede, ii. 42.	

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.

బొంతుకచ్చిక - (పుష్కరమూలము.)	Bomma kachchika, (<i>V. Pushkara mīlamu.</i>)	...	<i>COSTUS SPECIOSUS</i> , Sm.—R. i. 58.— <i>W. Ic.</i> 2014.	R. applies this name to <i>Zingiber roseum</i> p. 50; Cor. 126, but in Vizagapatam, it is invariably given to <i>Costus</i> which abounds in the forests of that province. The Sansyns, <i>Pushkara milaka</i> W. 545 and <i>Kāsmīra</i> W. 219 and Br. 224, are both applied to <i>Costus</i> .
P బొంతుపావట - (కొమ్మి.)	Bomma pāpatā (<i>V. Kommi.</i>)	...	<i>STYLOCORYNE WEBER</i> , A. Rich.	
బొంతుసారి.	Bomma sārī,	...	<i>POLYCARPÆA CORYMBOSA</i> , Lam.— <i>W. & A.</i> 1113-14; <i>Ill.</i> 110; <i>Ic.</i> 712.— <i>Celosia</i> cor. R. i. 681.	A doubtful name—R. calls it <i>Rajamu</i> a name we have never heard.
బొంతుడపుచెట్టు - (బరప)	Bommidapu chettu (<i>V. Barapatalu.</i>)	...	<i>INDIGOFERA GLANDULOSA</i> , Willd.	
Br. బొంతుమేడి - (బ్రహ్మమేడి.)	Bomma mēdi, (<i>V. Bramha mēdi.</i>)	...	<i>FIGUS OPPOSITIFOLIA</i> , R.	Br. 1269.
S K బొంగు వెనురు.	Bongu veduru, (<i>V. Pente veduru.</i>)	...	<i>BAMBUSA ARUNDINACEA</i> , Willd.—R. ii. 191; Cor. 79.	<i>Bongu</i> means "hollow". Br. 969, has <i>Pentiveduru</i> "female bamboo"—R's name <i>Mul-kāsa veduru</i> is unintelligible. The Sansyn. <i>Kichaka</i> , W. 223 is explained "a hollow bamboo."
బొంతరిటిచెట్టు - (అరిటి.)	Bonta ariṭi chettu, (<i>V. Ariṭi.</i>)	...	<i>MUSA PARADISIACA</i> , L.	A large var. used as a vegetable.—Br. 670. The word <i>bonta</i> , means "large," "coarse."
బొంతచామలు (చామలు)	Bonta chāmālu, (<i>V. Chāmālu.</i>)	...	<i>OPLISMENUS FRUMENTACEUS</i> , Kth.	
B బొంతజేముడు - (బొంతుజేముడు.)	Bonta chemuḍu, (<i>V. Bomma jemūḍu.</i>)	...	<i>EUPHORBIA ANTIQUORUM</i> , L.	
P బొంతవేంపలి - (వెంపలి.)	Bonta vempali, (<i>V. Vempali.</i>)	...	<i>TEPHROSIA PURPUREA</i> , Pers.— <i>W. & A.</i> 663.— <i>Galega pur.</i> and <i>lanceefolia</i> , R. iii. 386.— <i>Rheede</i> , i. 55.	

R	బొప్పాయి- (మదనఆనకపచెట్టు.) [బు.]	Boppayi, (V. Madana ānaka chettu.)	CARICA PAPAYA, L.—R. iii. 824.—W. & A. 1099; Ill. 106-7—Rheede, i. 15...		
Br.	బొట్టకడపచెట్టు.	Bóta kadimi, Botta kadapa chettu, ...	NAUCLEA PARVIFOLIA, R. i. 513; Cor. 52.—W. & A. 1207; Ill. 123.		The name is taken from the resemblance of the capsule to the stamp used for impressing the <i>botlu</i> or sectarian marks of the <i>Madhvacharya</i> Brahmans.
	బొట్టచెండ - (తుత్తురుచెండ.) బొట్టుకూరుచెట్టు. [డ.]	Botla benda, (V. Tutturubenda.) Bottu kuru chettu, (V. Pachcha botuku.)	ABUTILON INDICUM, W. & A.—Sida Asiatica, R. iii. 179. CORDIA POLYGAMA, R. i. 594.		Mr. Beddome found a sp. with this name in the valley of the Godavery which he considered new, and <i>C. polygama</i> was there called <i>Pachcha botuku</i> . We also found the latter name applied in Guntoor to a low growing sp. of <i>Cordia</i> not in flower. These two names are probably interchangeable.
B	బొటుకు.	Botuku, ...	CORDIA, new sp.?		W. 607 makes it <i>Ptychotis Ajowan</i> —Br. 718 has <i>Arg. Mex.</i>
Br.	బ్రహ్మదండిచెట్టు. [డి.] బ్రహ్మమేడి- (బ్రాడమామి) బ్రహ్మరాకాశి. (బలుర) బ్రహ్మరాక్షసి. క్రి.న.)	Bramhadandi (S) chettu, Bramha médi, (V. Bóda mánidi.) Bramha rákási, ... Bramha rákshasi, ... Bramhi chettu, ...	ARGEMONE MEXICANA, L.—W. & A. 59; Ill. ii.—R. ii. 571. FICUS OPPOSITIFOLIA, R. iii. 561; Cor. 124.—W. Ic. 638. FOURCROYA CANTALA, Haw. CLERODENDRON sp.?		
SK	బుడదనేడి- (కుంభి.) బుడమ. బుడమర- (చీపుడి.) బూదరేణి.	Budadanédi, (V. Kambhi.) Budama, Budamara, (V. Chīpudi.) Budarēni, ...	CAREYA AEROREA, R. CUCUMIS, L. GREWIA SALVIFOLIA, Heyne.—W. & A. 282. CAPPARIS DIVARICATA, Lam.—W. & A. 97; Ic. 889.		W. 609, says it is <i>Clerodendron Siphonanthus</i> . Among the Sans. syns <i>Amrita</i> , W. 61. is applied to <i>Emblica officinalis</i> , <i>Cocculus cordifolia</i> and others—Heyne, 133, makes it <i>Hydrocotyle Asiatica</i> . <i>Mandika brahmi</i> , q. v. is <i>Cler. infornatum</i> and <i>Bhramarantri</i> is <i>Cler. serratum</i> . A doubtful name only heard at Vissanna péta in Masulipatam. A generic name. A doubtful name of the Konda Doralu. Abundant under this name about Condapilly.

TELUGU NAME.		BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.		
చంచలికూర.	Chanchali kura, DIGERA MURICATA, Mart.—Achyranthes alter-nifolia, R. i. 674.	Br. 1210, refers to <i>Vishaglina</i> , W. 790, as a syn. to which W. assigns many significant. Amongst others, a "pot-herb," <i>Enhydra</i> (<i>Hingcha</i>) <i>repens</i> , &c. The leaves of the <i>Digera</i> are largely used as a vegetable.
B చందం—(చందనం.) చందనపు చెట్టు.	Chandam (<i>V. Kuchandanam</i>), ... Chandanapu chettu, ...	PTEROCARPUS SANTALINUS, L. ... SANTALUM ALBUM, L.—R. i. 442.	W. 316.—Br. 302. The attractive nature of the Sandal-tree is described in the following sloka. మాలంభుజం నై శ్శిఖరం విహం నై శ్శాఖాపవం నైః కుసుమానిభ్యం నైః సంశ్లేవ్యతేచందన సాదసానాంషరో పకారాయ సతాంవిభూతిః
చంద్రచెట్టు—(నల్లచంద్ర) చంద్రకాంత.	Chandra chettu (<i>V. Nalla chandra</i>), Chandra kanta, ...	ACACIA SUNDRA, D. C.—Mimosa Sun. R. ii. 562; Cor. 245.— <i>W. and A.</i> 843. ... MIRABILIS JALAPA, L.—Rheede. x. 75.	Round the stem of the <i>Chandana</i> , dwell serpents, on its top birds, on its branches monkeys, on its flowers bees,—so the riches of a good man are beneficial to all. It is sometimes, also called <i>Batracha</i> or <i>Badraksha</i> a word apparently of Tamil origin. V. <i>Battiraksham</i> in Rottler's Dictionary. ii. 291 where the term "Bhadras eye" is said to be applied to the seed of Marvel of Peru.
చంద్రపాద(సముద్రపాల.)	Chandrapada (<i>V. Samudrapala</i>), ...	ARGYREIA SPECIOSA, Swt.	So called in Ganjam.

చంకలికొడ్డి	Changali gaddi,	...	PANICUM COMMUTATUM, Nees.—P. ciliare, R. Br. 350—1210.	This is only sold as a drug. Its Sans. syns. <i>Utpala</i> W. 143 and <i>Kouvéra</i> W. 234, are both rendered a sp. of <i>Coslus</i> —Br. 350 and 292.
చంకలికొడ్డు	Changali kóshtu,	...	Coslus, Sp.—C. Arabicus, Heyne, 129.	
పొరపెట్టు	Chára (S) chettu,	...	BUCHANANIA LATIFOLIA, R. ii. 385.—W.	
పొరపప్పు.	Chára pappu,	...	and A. 525.	
పొరుమామిడి (పొరుమామిడి)	Cháru māmidi (V. Jāru māmidi),	...	COLOCASIA NYMPHÆEOLIA, Royle.—Arum nymph. R. iii. 495.—W. Ic. 786.—Rheede xi. 22.	Br. 325, copying W. in voce, <i>Pendulu</i> , 534, has merely “an esculent root.”
పొరకండ.	Chára kanda,	...	IPOMEEA CYMOSEA, Röm. and Sch.—Convolvulus blandus, R. i. 470.	A doubtful name of the Konda Doralu signifying “winnow-basket-tie.”
పొటకట్టుతివ్వ.	Cháta kattu tivva,	...	MOLLUGO SPERGULA, L.—W. and A. 161.—Mol. verticillata, R. i. 360; Pharmacum Mol. R. ii. 102.—Rheede x. 24.	
పొతరాశి కూర.	Chálarási kúra,	...	ANDROGRAPHIS ECHIOIDES, Nees.—W. Ic. 467.—Justicia ech. R. i. 118.	
చవలపురికాడ.	Chavalapuri káda,	...	PERISTROPHE BICALYCVLATA, Nees.—Justicia bic. R. i. 126	Br. 330 adopts this word from Roxb. but it is of very doubtful acceptance.
చేబీర.	Chébfíra,	MOLLUGO SPERGULA, L.	Br. 360. <i>Chédu</i> means “bitter.”
చేడరాశి—(చాతరాశి.)	Chédarási (V. Chálarási),	...	LUFFA AMARA, R. iii. 715.—W. and A. 1066.	The name signifies “bitter climbing tuber.” Not uncommon in the forests of the <i>Mangem</i> or Hill country of Vizagapatam and Ganjam
చేడువీర—(చేతివీర.)	Chédu bira (V. Chéti bira),	...	DIOSCOREA PULCHELLA, R. iii. 801.	Br. 360.
చేడుబడ్డుడుంప.	Chédu baḍḍu dūmpa,	TRICHOSANTHES CUCUMERINA, L.	Br. 359, does not state on what authority he inserts this name. The tree itself is not found in S. India.
చేడుపొట్ట—(అడవిపొట్ట.)	Chédu potla (V. Áḍavi potla),	...	VANGUERIA SPINOSA, R. i. 536.	
చేక్కడ.	Chéga gaddi,	...	SANSEVIERA ROXBURGHIANA, Schult.	
చేక్ష—(చాక్ష.)	Chéga (V. Chága),	...	CADABA INDICA, Lam.—W. and A. 80.—Stremia tetrandra, R. ii. 78.	
చేకొణి—(అడమెరిసిక.)	Chékonadi (V. Áḍa morinika),	...

చేకు రీతివ్వ	...	Chékurti tivva,	PENTATROPIS MICROPHYLLA, <i>W</i> contr. 52; <i>Ic</i> 352.— <i>R.</i> ii. 35.	The exact plant to which this name properly belongs, is doubtful. I heard it on one occasion applied to <i>Desmodium</i> . Lt. Beddome heard it given to <i>Coldenia procumbens</i> . Br 354 and 370 following Ainslie 5, assigns it to <i>Asarabacca</i> (<i>Asarum Europeanum</i>) a drug belonging to the natural family <i>Aristolochiaceæ</i> , which is imported and sold in the bazars, but does not grow in India. The Telugu word signifies "shoe leather" which is applied to leaves having a wrinkled surface. One of the Sans. syns. in Pt. II. <i>Charmára</i> agrees with this, as does <i>Seruppadi</i> .

చిలంకి.	Chillanki,	...	INGA UMBELLATA, Willd.—W. and A. 834.—Mimosa concordiana, R. ii. 556.	

SK.

B

B	చినురుడు (చేకొణది.)	Chinurudu (V. Chikonadi.)	... CADABA INDICA, Lam.	This name is quoted on the authority of Rottler, Ains. 114, but it is admitted by Boyle, Ill. 219, and appears to be well known to the natives as a medicinal root. Br. 257 applies Rottler's name to <i>Avva gida</i> which is undoubtedly <i>Tr. palmata</i> . Among Dr. Cleghorn's drawings, is a figure marked by Dr. Wight as " <i>Tr. palmata</i> ", which seems to answer to Rottler's plant. It certainly differs from <i>Tr. palmata</i> in the leaves being deeply incised and the ♀ pedicels being simple and one flowered—not racemose.
P	చినఅవగూడ.	China avagūda, TRICHOSANTHES INCISA, Roll.

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
చిన్న జమ్మి - (చేలజమ్మి.)	Chinna jammi (V. Nela jammi.)	...	ACACIA CINERARIA, Willd.—W. & A. 864.	This plant which Wight seems to consider rare, is not uncommon in the neighbourhood of Madras. It was figured by Plukenet under the name of " <i>Acacia Madras patensis, spinosus, Intise accedens, &c.</i> " tab. ii. f. i.
B చిన్న కళింక.	Chinna kalīnga,	...	DILLEZIA PENTAGYNA, R. ii. 652; Cor. 20.	This seems a doubtful name and is given on Mr. Beddome's authority. <i>Inguva</i> and <i>Kāru inguva</i> are common names of species of <i>Gardenia</i> , the leaves of which resemble those of Dilliniace. Roxb's name, <i>Rowadan</i> is unrecognizable.
B చిన నారె.	China nāre,	...	EUGENIA SALICIFOLIA, R. W.—Ill. ii. p. 16; Ic. 539.	Mr. Beddome gives this name with a mark of doubt.
చిన నిద్రా కంటి.	Chinna nidra kanti,	...	DESMANTHUS TRIQUETRUS, Willd.—W. & A. 836; Ic. 756.—Mimosa triq. R. ii. 552.	Name of Konda Doralu.
చిన్న రంతు.	Chinna rantu,	...	RHAPHIDOSPORA GLABRA, Nees.	
P చిన్ని ఆకు.	Chinni āku,	...	ACALYPHA BETULINA, Retz.—Spreng. sys. iii. 879.—A. spiciflorus, Lam. encycl. vi. & pl. 789. f. 1.	This plant tho' so common and so well known to the natives, is not found in Roxb. Wight, nor in Voigts. or Graham's Catalogues. Sprengel quotes it with the syn. of <i>A. fruticosa</i> Forskh. p. 161; and Lam. supp. iv. 681, under <i>A. fruticosa</i> refers to Vahl. symb. i. p. 77, to which Poiret adds a note that perhaps the plant of Retz and Willd. differs from Forskals and requires further examination. In this he is no doubt correct, for the Indian plant is not fruticose—but herbaceous. Pluken. has two figures resembling our plant t. 99. f. 4 and Amalth. t. 449 f. 3. This species has also been confounded with <i>Caturus spiciflorus</i> R. iii. 760; V. Pritzels Index, voce <i>Acalypha</i> , where reference is made to Bumph. Amb. 4. 37

P	చిన్ని చెట్టు. చిన్ని కలబంద.	...	CELASTRUS EMARGINATA, Willd.—R. i. 620.— W. & A. 502.	...	The word means, broom or sweeping-grass, from the use to which it is applied— Roxb. applies a name to <i>A. Hystrix</i> which seems to be merely a misprint of this, the correct Telugu term.
R	చింత చెట్టు. చివ్వబోరకడ్డి.	...	ALOE INDICA, Royle—A. perfoliata, R. ii. 167.	...	
SK	చివ్వకడ్డి (భూస్పృణం.) చీపుడి—(బుడమర.) చీపురుకడ్డి—(పూచికకడ్డి.) చీపురుతీక (మానలితీక.) చిరకడం (చిలకడం.) చిరంజీ.	...	TAMARINDUS INDICA, L.—R. iii. 215.—W. & A. 884.—Rheede, i. 23. PANICUM CORYMBOSUM, R. i. 292. ANDROPOGON SCHREINANTHUS, L.—R. i. 274.— Rheede, xii. 72. GREWIA SALVIFOLIA, Heyne. ARISTIDA SETACEA, Retz.—Chortaria set. Beauv.	...	A local name.
	చిరతలబోడి (సులిక.)	...	COCCULUS VILLOSUM, D. C. BATATAS EDULIS, Cl. RUBIA ?	...	This name is applied to a dying root in the hazars of the Northern Circars, which I suppose to be that of <i>Rubia cordifolia</i> . Roxb applies it to <i>Grislea tomentosa</i> .
	చిరిఅల్లి.	...	DAIBEERGIA (Brachypterum) SCANDENS, R. iii. 232; Cor. 192.—W. & A. 812; Le. 275.— Rheede, vi. 22. VILLARSIA CRISTATA, Spreng.—Menyanthes cris. R. i. 459; Cor. 105.—Rheede, xi. 29.	...	The word means "small water-lily," all being the usual name for <i>Nymphaea</i> about Madras, where this name is used by the Yánádis.
	చిరిఅట్నం (శిరిఅట్నం.) చిరిబెండ (తెల్లఅంటిన.) చిరిబిక్కి—(చిట్టమట్ట.) చిరిచాతరాశి.	...	BRIEDELIA SCANDENS, Willd.—R. iii. 738; Cor. 173.—Rheede, ii. 16. SIDA CORDIFOLIA, L.—R. iii. 177.—W. & A. 219.—Rheede, x. 54. GARDENIA GUMMIFERA, L. DENTELLA REPENS, Forst.—R. i. 532.—W. & A. 1246.	...	The word means, the little <i>Mollugo Spargula</i> and being only given by the Konda Do- rahn of Simhachalam, is of very doubtful acceptation.

PETROCARPUS DALBERGIOIDES ? R. iii. 236.—
W. and A. 824; *Ic.* 246.
 ...
Evolvulus alsinoides, in the North to *Clitoria ternatea* W. 793 This red kind may there-
 fore be a sp. of *Clitoria* or *Neurocarpum*. Another syn. *Aparijita*, W. 44, is also *Clitoria*.
 The name which rests on Roxb's authority simply means "red *Phyllanthus*."
 Br. 127.
 Br. 136 says "a tree called *Arjuna*" but
 T. Arjuna is not common in the Penin-
 sula—It appears however to resemble
 T. *Berryi* closely which is a water lov-
 ing sp.
 Br. 136 "a kind growing near water." Pro-
 bably the same as *Eti malle* or *Polygonum*
tomentosum?
 The Sans. syn. is *Gandhra*, W. 229 "a kind
 of potheb growing in wet ground" *Vanga* is a
 generic term applied to the different
 kinds of *Solanum*—*Eru vanga* "river Solanum." Br. 135 says "a medicinal plant, *Sola-*
num speciosum, in Sans. *Granthila*,"—which according to W. 304, is *Flacourtia sapida*.
 Heyne 137, says, "*Solanum* spec." whence probably Br. took his name of *S. speciosum*!
 DILIVARIA ILICIFOLIA, *Juss.*—*W.* *Ic.* 459.—

We have specimens in seed but have never seen the flower. It might be named <i>C. acaulis</i> .

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernaacular Character.				
గంధేలు-(నజలు.)	Gantelu (V. Sajjaloo)	...	PENICILLARIA SPICATA, Swz.	This name was given to the tree, at Narsapatam, also <i>Garaga mutika</i> . The orthography is doubtful not having been written down in Telugu. Sacred to <i>Ganēsa</i> under the name of <i>Dīrva</i> or <i>Dīrbbā</i> , W. 419.
గారచెట్టు.	Gára chettu,	...	BALANITES EGYPTIACA, <i>Delile</i> .—β. Indica.—W. III. i. 103—Ximenia Egypt. R. ii. 253.	
గరగ-లేక-గరగ-(చిరిచి క్కి-.)	Garaga or Gārāga (V. Chirilikki)	...	GARDENIA GUMMIFERA, L.—W. and A. 1220—G. arborea, R. 1708.	
గరికె.	Garike,	CYNODON DACTYLON, Pers.—Panicum Dac. R. i. 289.—Agrostis linearis As. Res. iv. 248	
P గరికికమ్.	Gariti kamina,	...	VERNONIA CINEREA, Less.—Serratula cin. R. iii. 406—W. contr. 6.— <i>Rheede</i> , x. 64.	This is a doubtful name, only found in Piddington under <i>Congya cin</i> . Probably <i>J. angustifolium</i> —Found at Narsapatam, but not specifically noted at the time. The bitter root is used medicinally and perhaps, from its name may be considered to possess toxicological qualities.
గరుడమలె.	Garuda malle,	...	JASMINUM, Sp. ...	
గరుడముక్కు-(తేలుకొండి చెట్టు.)	Garuda mukku (V. Tēlu kondi chettu),	...	MARTYNIA DIANDBA, <i>Glor</i> ...	
గరుగుచెట్టు.	Garugu chettu,	...	GARUGA PINNATA, R. ii. 400; Cor. 208.—W. A. 589; L. 1594-5— <i>Rheede</i> iv. 33.	This name we have heard given to the plant indicated above, but the Sans. <i>Gaseka</i> is in fact "poppy-seed," Br. 204. The other syns. in Pt. II. are compounds signifying "minute seed," and refer to the same plant—Piddington's Index under <i>Hedysarum styg.</i> has "Tel. <i>Nalla mandu</i> ," which, also, signifies opium.
S K గసగసాలచెట్టు.	Gasagasāla chettu,	...	ALYSICARPUS STYRACIFOLIUS, DC.—W. and A. 720—Hedysarum glutaceum, R. iii. 347.	
గాత.	Gāta,	DIOSPYROS SYLVATICA, R. ii. 537; Cor. 47.	
గట్రింత(చివ్వపొలికె.)	Gatrinta (V. Tiiva polike),	...	HUGONIA MYSTAX. L.—W. and A. 261; Ill. i. 32.	In the Nagari Hills, it is called <i>Kāki bīra</i> . Br. 203, says, "the tree called <i>Kaparda</i> "— <i>Kaparda</i> is a name of <i>Siva</i> , from his matted locks—W. 188, <i>Kapardiri</i> . Neither of these words occurs as a name of a tree except in Br. who quotes the <i>Kwadha Sāstram</i> .
Br. గవడచెట్టు.	Gavaḍa chettu,	

Br. గొడుపాచిలి (పెద్దపాచిలి.)	Godḍu pāṇi (V. Peḍḍa pāṇi),	...	PORTULACA QUADRIFIDA, L.—R. ii 404.— W. & A. 1108.	Godḍu means worthless, sterile. Br. 598.
Br. గొడుంగాకర.	Godḍuṁ gākara,	Br. 273, says "a plant called <i>Vandhyā</i> or <i>Dēvi</i> ." The latter part of the name seems to refer to a cucurbitaceous plant <i>Monor-dica</i> sp?
R. గొడుతుంగకూడు.	Godḍu tunga koḍu,	...	CYPERUS SEMI-NUDUS, R. i. 187.—W. <i>contr.</i> 80.	...	W. 299.—Br. 287.
S K. గొడుములు.	Godhumulu,	...	TRITICUM SATIVUM, L.—R. i. 359.	...	"Umbrella" grass. Sans. syn. <i>Ch'hadrā</i> or <i>ch'hadrā</i> , W. 333 "a fragrant grass growing in marshy ground."
Br. గొజ్జంగి (గజంగి.)	Goljāngi (V. Gājāngi),	...	PANDANUS ODORATISSIMUS, L. <i>fil.</i>	...	Br. 772.—It is called by various names as <i>Golakonda</i> , <i>Nepal</i> &c., chilly.
R. గొలగండి (అనుడకాడ.)	Golagandī (V. Anaḍa káḍa)	...	CYANOTIS AXILLARIS, <i>Schult.</i>	...	Br. 1195, "a kind of tree" and refers to another tree called <i>Kundena</i> . <i>Jidḍu</i> means "viscous."
Br. గొలకొండమరప—(సూచిమి రప.)	Golakonda mirapa (V. Sidimirapa),	...	CAPSTUM FRUTESCENS, L. var. β flavum.	...	So called by the Konda Doralu at Simhā-chalani.
S K. గొల్లజిడ్డుచెట్టు.	Golla jidḍu cheṭṭu,	...	DODONÆA BURMANNIANA, DC.	...	Common in rice fields and its seeds often therefore mixed with the paddy. Hence The Sans. syns. in Pt. II refer to very different plants. <i>Kōḷiksha</i> "cuckow-eye" W. 259, <i>Ikshurakā</i> , W. 129, are stated to be a <i>Capparis</i> also <i>Barteria longifolia</i> , <i>Saccharum spontaneum</i> , <i>Tribulus</i> , &c.
S K. గొల్లమిడి. } (గలగిడి.)	Golimidi } (V. Gila gādḍi).	...	COIX BARBATA, R. iii 569.	Br. 268 and 1190. This seems to have been taken from the Tamil name of the fruit. The word is commonly used by the Yānādis on the Nagari Hills.
గొలివె. }	Golive }	
Br. గొలుగు.	Golugu,	...	GLYCOSMIS PENTAPHYLLA, DC.—W. and A. Br. 282.	...

	జేముడు-(చెముడు.) జేనచెట్టు-(జానచెట్టు.)	Jemuḍu (V. Chemuḍu.) ... Jēna chettu (V. Jāna chettu.) ...	EUPHORBIA TIRUCALLI, L.—R. ii. 470.— <i>Rheede</i> ii. 44. GREWIA ROTUNDIFOLIA, <i>Juss.</i>	...

In applying this botanical name, we have followed Heyne. But the true *Jatāmānsi* is a sp. of Valerian (*Nardostachys Jatāmānsi*, DC. Royle III. 54) which has been successfully identified by Sir W. Jones with the spikenard of the ancients; As. Res. ii. 405—iv. 109, and which by Persian and Arab physicians is called *Sanbal-i-Hindi* and *Sanbal-ul-taib* and in upper India *Jatāmānsi* and *Bālākhār*—But as the true plant is only found at great elevations beyond the tropics, the term is applied in South India to the sweet-smelling tubers of various sp. of *Cyperus*, and in upper India to the lemon-grass (*Schænanthus*) and other sp. of *Andropogon* which are known also under the names of *Ashhar* and *Sik'hūnas*. (σχυρος);—W. 338 and Br. 306 follow Roxb. and render the word Valerian.

కక్కి-త-(నముద్ర పాల.)	Kakkita, (<i>V. Samudra pāla</i> .)	
కక్కోల.	Kakkōla, S.	{ "A kind of perfume obtained from a berry sold in the bazars—It is oval with a thick, green, sebaceous, fragrant integument, which dries and shrinks with age, and abounding with a resin which is inflammable and slightly soluble in water and more so in alcohol. Some have referred this name to the berries of <i>Anamirta Cocculus</i> , but these are poisonous while the <i>Kakkōla</i> is an esteemed drug, being described as pungent, bitter and carminative, in the <i>Rāja nighantū</i> and <i>Bhāva-prakāśa</i> —Wilson As. Res. xiii. 411. 4to.
కక్కోలక.	Kakkōlaka, S.	
కాకోలి.	Kākōli, S.	{ A drug so called from its color which is black like that of the crow; according to some, also a perfume. "The Hindus enumerate in their medical works a class of eight substances, which they denominate the <i>Aśta varga</i> or class of eight; they are all roots—and appear to come chiefly from Népál and the countries skirting the Himalayan Mountains. They may be employed either singly or collectively and are described as cool, sweet, fattening, and aphrodisiac, promotive of digestion, sanative, lactiferous and tonic. They are farther said to possess great efficacy in urinary and phthisical affections and in removing the sequelæ of fevers. Their names are <i>Jivaka</i> , <i>Pisanábha</i> , <i>Mēda</i> , <i>Mahā mēda</i> , <i>Kakōli</i> , <i>Kshīra-kākōli</i> , <i>Biddhi</i> , and <i>Vridhī</i> . The substance amongst these termed <i>Kākōli</i> is generally connected with the one subsequent to it in the above list or <i>Kshīra-kākōli</i> and they are thus described in the <i>Bhāva-prakāśa</i> : These two drugs are procured from Morung, and the adjacent districts. <i>Kshīra-kākōli</i> resembles the root of the <i>Pivari</i> (<i>Asparagus racemosus</i>) and is of a white color, a fragrant smell and full of milky sap. The <i>Kākōli</i> is of similar form and character, but of a dark hue.—They are both sweet and cooling, they remove fever, and correct a vitiated state of the blood and bile; the root of the <i>Vidāri</i> (<i>Batalas paniculatus</i>) and the <i>Asvagandah</i> (<i>Physalis ferox</i>) are severally substitutes for the <i>Kākōli</i> and <i>Kshīra-kākōli</i> ,"—Wilson As. Res. xiii. 410. 4to.

TELUGU NAME.		BOTANICAL NAME.		REMARKS.
Vernacular Character.	Roman Character.			
S K. కరతాళము (కాటిపెట్టు)	Karatālamu, S. (V. Tāṭi chettu)	BORASSUS FLABELLIFORMIS, L.	...	Br. 188, as distinguished from <i>Corypha Taliera</i> .
S K. కరకాటక్యంగి ౭.	Karkāṭa śringi(S.) tige	TEEMINALLIA CHEBULA, Retz.—O'Sh. p. 340	...	This rendering is given on the authority of O'Sh. and on inquiry for <i>Karkata śringi</i> in Tam. <i>Karakakaya</i> or <i>Karaka</i> 'tel. q. v. W. 194, at the word <i>Karkatali</i> , says "a plant the fruit of which is compared to the claw or feelers of a crab," a description applying to the pepo of some cucurbitaceous plants. The Sans. syn <i>Śringi</i> , W. 855, signifies "a horn" and is applied to various roots, several of which come under the head of <i>Kakli</i> , q. v. The word <i>tige</i> implies a climbing plant.
S K. కర్నిక.	Karnika, S.	PREMNA SPINOSA, R. iii. 77.	...	This is given on the authority of W. 194.—Br 192 has <i>Barleria</i> sp.
S K. కార్పాసము.	Kārpāsamu, S. (V. Patti)	GOSYPIUM HERBACEUM, L.	...	W. 215—Br. 220.
S K. కర్పూరపెండ.	Karpūra bendā,	ABELMOSCHUS MOSCHATUS, Monch?—W. and A. 195; Ic. 399.—Hibiscus Abelm. R. iii. 202.—Rheede, ii. 38.	...	There is no authority for the botanical name, but it seems a probable application of the Telugu term <i>Karpura</i> .
కర్పూరవల్లి.	Karpūra valli,	COLEUS AMBOINICUS, Lour.—C aromaticus. Benth.—Plectranthus arom. R. iii. 22.	...	This plant has much the appearance of <i>Euvaccera</i> , q. v but it is easily distinguished by the aromatic fragrance of its leaves and indeed of all its parts, a quality which in <i>Kuruvēru</i> is confined to the exuberant roots alone. Dillwyn, Rev.Hort. Mal. following Rumphius, cites Rheede Tab. ix. 74 for this plant. But both the figure and description clearly refer to <i>Kuruvēru</i> . It is more probable that Rheedes fig. in Tab. 75 of his <i>Naravalli</i> (' <i>Nam. நறுவள்ளி</i> <i>Naravalli</i> , lit. "fragrant plant") is intended for our <i>Karpuravalli</i> . The very meagre description characterizes the leaves as "odoris grati" and adds "that it never flowers" which in fact it rarely does. Both figures are wretched, the leaves being represented as alternate! and the whole very incorrect. Bottl. ii. 170, erroneously explains <i>Karpuravalli</i> as being <i>Anisochilos carnosus</i> .
కర్రాంతింత.	Karra antinta,	DICERMA PUICHELLUM, DC.—W. and A. 709; Ic. 418.—Hedysarum pul. R. iii. 361.	...	So called from the legumes sticking like burrs.— <i>Antinta</i> means any thing that catches or sticks to cloth.

కరవెండలం - (మాను వెండలం.)	Karra pendalam (V. Mannu penalam.)	JANIPHA MANIHOT, Kunth.	...	Cultivated in gardens.
కరవీక (కారువీకాయ.)	Karra chika (V. Kāru vīkāya.)	...	ACACIA PENNATA, Willd.	
కరసిరీ - (తెల్లతీర.)	Karra sirli (V. Tella tīre.)	...	DALBERGIA RUBIGINOSA, R. iii. 231; Cor. 115. —W. and A. 817.	This is the name given by the Konda Dorala in Vizagapatam—Roxb's name is <i>Tella tīre</i> , which simply means "white climber", and will suit any other white-flowered creeper. Name given by Konda Dorala.
కరవడల - (బండిమరుగుడు.)	Karra vadala (V. Badi murugudu.)	...	GETONIA FLORIBUNDA, R.	
కరతుంక.	Karra tunga,	MARISCUS DILUTUS, Nees.—W. contr. 90.—Cyperus spinulosus, R. i. 203.	
కరకలవ.	Karra ulava,	RHYNCHOSIA SUAVEOLENS, DC.—W. and A. 737.	A doubtful name at Simhachalam, of local application.
కారులలచంప.	Kāru alachanda,	PHASEOLUS ROSTRATUS, Wall.—W. and A. 750; Ic. 34.—Ph. alatus, R. iii. 288.—Rheede viii. 42.	
కారలము.	Kārallamu,	CARALLUMA ADSCENDENS, R. Br.—Stapelia ads. R. Cor. 30.	<i>Allam</i> is "ginger" <i>Kāru allam</i> "wild ginger." This is evidently a misnomer of Roxb, which has been perpetuated by R. Brown, who has formed his genus on Roxb's mistake—see next word.
కారులలము.	Kāru allamu,	ZINGIBER CASSUMUNAR, R. i. 49.	This name is universally known in the hilly parts of the Circars—It is also applied to other wild sp.
కారులలము.	Kāru āmudam dumpa,	JATROPIA TUBEROSA, nob.	This name which means simply wild <i>Écainus</i> and is applied to various wild <i>Crotoms</i> , was given to a curious plant brought from Golkonda, which grew for three years in my garden at Vizagapatam. Its generic characters are the same as those of <i>Jatropha villosa</i> , W. Ic. 1169, which he considers may form the type of a new genus: <i>Root</i> , a perennial, cylindrical tuber, as thick as a man's arm; <i>stem</i> , annual, herbaceous, erect, smooth, without glands, appearing with the early showers in April—May, lasting till December; <i>leaves</i> , glabrous, digitately 3-parted, with rounded sinus, 8 inches in length, the divisions, oblong, entire, pointed, with well marked translucent veins and somewhat tumid, translucent edges; <i>petiole</i> , smooth, slightly channelled 1½ in. long; <i>stipules</i> 4 or 5 subulate bristles on each side of the petiole; <i>inflorescence</i> , terminal, monœcious, ♂ flowers above, ♀ flowers below, in the divisions; <i>bracts</i> , small, lanceolate, adpressed; <i>calyx</i> , 5-fid, divisions ovate; <i>corol</i> , tubular, separating into 5 oblong, obtuse petals, throat hairy; <i>stamens</i> 8, united into a central column, with 5 erect glands at its base; <i>anthers</i> , extrorse; <i>ovary</i> , not specially noted, 3-celled, uniovulate?

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
కారుబచ్చలి.	BASELLA ALBA, L.	Wild var.
కారుబంతి.
కారుబొప్పాయి.	ERYTHROPSIS ROXBURGHIANA, Lindl.—Sterculia colorata, R. iii. 146; Cor. 25.—W. and A. 233.	A composite plant, not identified.
కారుచమ్మ (అడవిచమ్మ.)	CANAVALIA VIROSA, W. and A.
కారుచీకాయ (కర్రచీక.)	ACACIA PENNATA, Willd.—W. and A. 860.—Mimosa torta, R. ii. 56.	...
కారుచిక్కడు - (ఎర్రచిక్కడు.)	DOLICHOS GLUTINOSUS, R.	...
కారుచీయ - (పారుజాతం.)	NYCTANTHES ARBOR-TRISTIS, L.	This is a very doubtful name occurring only in Mr. Beddome's list.
కారుచోడి.	ELEUSINE INDICA, Gaertn.—R. i. 345.	Rheede's fig. xii. 69, has been quoted for this plant but according to Dillwyn, it is <i>Cynosurus Cavaia</i> , Ham—See remark on <i>Balbojani</i> .
కారు పెండలం.	DIOSCOREA NUMMULARIA, Lam.—R. iii. 803.	...
కారుగిలిగిచ్చ.	CROTALARIA HIRTA, Willd.—W. and A. 558.—C. Chinensis, R. iii. 268.	"Wild Crot."—will apply equally to any other sp.
కారుగుగ్గిలం.	GELONIUM LANCEOLATUM, R. iii. 831.—W. Ic. 1867.	This tree was only met with once, at Sankalaplalem, between Vizagapatam and Anakapalli.—The name is evidently local.
కారుజాఫర - (కొండజాఫర.)	BOTTLEA LACCIFERA, Voigt—R. dicocca, R. iii. 829.—Croton lacciferum, W. Ic. 1915.	<i>Jáphara</i> , the name of <i>arnotto</i> is sometimes applied to <i>Rottl tinctoria</i> . Hence this is called <i>Káru</i> or <i>Konda</i> , i. e. "wild arnotto" by the Konda Doralu. See Wight's observation on the nomenclature of Ic. 1915.

S.K.	కారుకండి - (ఎర్రచిక్కడు.)	Káru kandi (V. Erra chikkuḍu)	...	DOLICHOS GLUTINOSUS, R.	Kolli is <i>Pharbitis Nil</i> ; <i>káru</i> or "wild" <i>Kolli</i> should be a cognate sp. The Sans. syns. are <i>Váyasali</i> , W. 752 and <i>Kayasthá</i> W. 191, both of which he refers to <i>Kákóli</i> , q. v. The root of <i>Ph. Nil</i> yields the mild purgative called <i>Kála dāna</i> —Br. 219, refers to <i>Kaligoṭu</i> , which is <i>Bignonia Chelonoides</i> .
S K	కారుమినుములు.	Káru minumuḷu,	PHASEOLUS RADIATUS, L. not R.—W. and A. 758.	This is probably only the normal state of <i>Ph. Roxburghii</i> . The syns. of the two plants in Pt. II are different but all refer to sp. of <i>Phas.</i> or <i>Dolichos</i> . There is much confusion in the nomenclature which it is impossible to clear up.
S K	కారుముసX - (ముసX.)	Káru munuga, (V. Munuga)	MORINGA PTERYGOSPERMA, Gertr.	Wild var. We have found it growing at a distance from habitations.
R.	కారునీలి.	Káru nḷi,	INDIGOFEBA CEBULEA, R. iii. 377.—W. and A. 634; Ic. 366.	We have found the name applied to two different plants, but of the identity of the second we are doubtful.
	కారునవ్వులు.	Káru nuvvulu.	{ 1 SESAMUM PROSTRATUM, Retz.	
	కారుపసుపు - (జాంX.)	Káru pasupu, (V. Jongra)	{ 2 ARTANEMA SESAMOIDES, Benth?	
	కారుపత్తి.	Káru patti,	CURCUMA MONTANA, R. i. 35; Cor. 151.	
	కారు పెండలండుంప.	Káru pendalam dumpa,	HIBISCUS VITIFOLIUS, L.—R. iii. 203—W. and A. 183.—Rheede, vi. 46.	Applied to any less known sp. growing wild.
	కారుపొగాకు.	Káru pogáku,	DIOSCOREA, L.	A composite plant not found in flower.
	కారుకుమ్మి.	Káru tummi,	DYSOPHYLLA TETRAPHYLLA, R. W. Ic. 1444.	"Wild Leucas" a name given by the Kon- da Doralu.
	కారుతుంX.	Káru tunga,	LITOCARPHA TRICEPS, Nees.—W. contr. 92.	Applied also to various other <i>Cyper</i> .
	కారుడొడగడి.	Káru ḍa gaḍḍi,	—Tunga tri, R. i. 183.	Not identified.
	కారుఉలవా - (కొండఉలవ)	Káru ulava, (Konda ulava)	PANICUM MUCHRONATUM, Roth?—P. brizoides, L. not R?	
			CANTHAROSPERMUM PAUCIFLORUM, W. and A. 787.—Dolichos medicagineus, R. iii. 316.	"Wild gram"—also applied to various kinds of <i>Desmodium</i> , <i>Glycine</i> , &c.

P కౌసుకండ్ల.	Kousu kandra	...	STRYCHNOS BICIRRHOSA, <i>Lesch.</i> — <i>R. Fl. Ind. ed.</i> Wall. ii. 267.	This tho' a Tamil name used in Tanjore, where the species was first found, has nevertheless a Telugu derivation likewise, from <i>Kousu</i> "a disagreeable smell," which is characteristic of the plant. The name is also quoted as <i>Tel.</i> in <i>Pid. Ind.</i> I found the plant plentiful in the Nagari Hills under the name of <i>Tige mushiti. q. v.</i>
R కొయలు.	Koyalu	...	SALICORNIA BRACHIATA, <i>R.</i> i. 84.— <i>W. Ic.</i> 738.	
B కొయిల మొకిరి (పుట్టజిలెడు.)	Koyila mokiri (<i>V. Putta jilleḍu</i>)	...	WRIGHTIA TOMENTOSA, <i>Rom.</i> and <i>Sch</i> — <i>W. Ic.</i> 443.— <i>Nerium</i> tom, <i>R.</i> ii. 6— <i>Rheede</i> , ix. 3—4.	Only found in Mr. Beadome's list.
R కొయ్యపిప్పలి.	Koyya pippali	...	SALICORNIA INDICA, <i>Willd.</i> — <i>R.</i> i. 85.— <i>W. Ic.</i> 737.	
కొయ్యతోటకూర.	Koyya tōṭa kūra	...	AMARANTHUS TRISTIS, <i>L.</i> — <i>R.</i> iii. 604.— <i>W. Ic.</i> 514.	
క్రానుగ-(కానుగ.)	Krānuga (<i>V. Kānuga</i>)	...	PONGAMIA GLABRA, <i>Vent.</i>	The Sans. form of the word.
కృష్ణ అగరు (అగరు.)	Krishna agaru, S (<i>V. Agarū</i>)	...	AQUILLARIA AGALLOCHA, <i>R.</i>	Black agallocha. There appear to be at least three kinds of agallocha or wood-aloes, the trees producing which are not fully identified—Roxb. followed by Royle, admits doubtfully the existence of two, — <i>Ag. Agallocha</i> , <i>R.</i> and <i>Ag. ovata</i> Cor., the Garo demalacea of Lam.; and an inferior sort is said to be derived from <i>Excoecaria Agallocha</i> , which need not be taken into account. But Loureiro maintains that the best lign-aloe or <i>calambac</i> , which appears to be the ' <i>id-i-kimari</i> of the Indian bazars is derived from a tree which he calls <i>Aloexylon Agallochum</i> , Roxb.; and Royle considers the Malayan <i>agila</i> (whence probably is derived the Hindi <i>aguru</i>), the aquila and eagle-wood of commerce and the ' <i>id-i-Hindi</i> of the bazars, to be the produce of <i>Aquillaria Agallocha</i> which grows plentifully to the N. E. of Bengal and that it is probably identical with <i>A. ovata</i> .— <i>Royle</i> .
కృష్ణ చందనం-(చందనం.)	Krishna chaudanam, S. (<i>V. Chādanam</i>)	...	SANTALUM ALBUM, <i>L.</i>	Black sandal, probably referring to the heart of the tree which is the most prized for its scent and is more or less dark-colored according to age. W. 219. under <i>Kāleya</i> and <i>Kālēyahā</i> says "a yellow fragrant wood"—SK. says "sandal from the mountain <i>Jāpaka</i> " and quotes the Sans. <i>Kāḍmī śāraka</i> W. 218, where it is explained by <i>Tagaru</i> (<i>Tabernemontana coronaria</i> .)

కృష్ణ తామర.	...	CANNA INDICA L.—R. i. 1.— <i>Rheede</i> , xi. 43.
కృష్ణ తులసి—(తులసి.)	...	OCIMUM SANCTUM, L.
కృష్ణ వేణి.	...	POUZOLZIA, sp. This name was found at Vissanná péta.
కృష్ణ వేణి దుంప.	...	THERIPHONIUM sp. This name was applied to an <i>Arum</i> obtained from a native garden at Vizagapatam—stemless, with sagittate leaves; <i>spathe</i> with crenulate, colored margin; <i>spadix</i> slender, cylindrical, interrupted, colored, with free rudimentary processes above and below the stamina; <i>anthers</i> bifolocular, opening with a pore on the apex; <i>ovaries</i> few, in a single series round the base; <i>ovules</i> 6-8, in a unilocular cell part erect rising on a short pedicel, from the base, part pendulous by a funicle from the top.
Br. కృష్ణము (హిందుక చౌక)	...	COSTUS SPECIOSUS, Sm. Br. 1199.
క్షీరకామోళి (కామోళి చెట్టు.) W. 265. V. remark on <i>Kákôli</i> .
క్షీరకదంబం.	...	NAUCLEA, sp. Milky <i>Nauclaea</i> —a sp. from Pálakondá, not seen in flower. W. 230.
S K. కుబ్జకం. (పరికెగడ్డ.)	...	LEAPA BISPINOSA, L. W. 235—Br. 246, makes it <i>Gulandina</i> .
S K. కుబేరాక్షి—(పాదరిచెట్టు.)	...	BIGNONIA SUAVEOLENS, R. Red sanders— <i>ku</i> means “bad, inferior.” It is the red sandal used by dyers—Beddome found the tree on the Gódvári under the name of <i>Chandam</i> —W. 225.
S K. కుచందనం - (ఎర్రపండు సం.)	...	PTEROCARPUS SANTALINUS, L.—R. iii. 234.—W. and A. 822.	... This name appears to be mispelt by Roxb. who is followed by Br. 348— <i>Juvri</i> is applied to various kinds of <i>Ficus</i> — <i>Kaduru</i> , Br. 244 “a branch of a family” is almost syn. with <i>putra</i> a son.
కుచెల్ల.	...	ANTHERICUM TUBEROSUM, R. ii. 149; Cor. 138—Phalangium tuberosum, <i>Kanth.</i> —W. Ic. 2086.	... A doubtful name of the Konda, Doralu at Simhachálam.
R. కుచురుజీవి—(పుత్రజీవి.)	...	PUTRAJIVA ROXBURGHII, Wall.
కుక్క-బుడ్డు—(మెడకవ.)	...	GREWIA PILOSA, Lam.

Br. కురునుపుల్లు.	Kuru nuvvulu	Br. 1187 explains it by <i>Pavula guruvenda</i> i. e. flowery <i>Abrus</i> , adding, "the common plant <i>Hiptage Madabloti</i> ," W. 232 under <i>Kuruvinda</i> has <i>Gypneris hecastachys</i> .
Br. కురువెండ.	Kuru venda	This appears certainly to be the plant figured by Rheede ix. 74. under the name of <i>Kuruvē</i> , an incorrect notation of <i>Kuruvē</i> —
కురువేరు.	Kuru vēru	COLEUS, vel PLECTRANTHUS, sp.—Rheede, ix. 74.	by Rheede ix. 74. under the name of <i>Kuruvē</i> , an incorrect notation of <i>Kuruvē</i> —
				is applied to <i>Andropogon muricata</i> or <i>khashkas</i> —Under కురువేరు <i>Kuruvē</i> , Rottl. 127 refers unhesitatingly

to Rheede's fig. 74, adding that it never flowers—Rheede however, adverts specifically to the flowers as being in terminal spikes. The whole of Rheede's description applies exactly to our plant, which does not appear to have been ever described and might be named provisionally *Calceus osmirrhizon*. BRS. description 251, is tolerably correct with the exception of the word *gunja* (ಗಂಜ) which does not apply. Heyne 130, calls it *Auisocheilus carnosus*, a every different plant. The Sans. syns. *Hrébéra*, W. 981 and *Váluka* W. 604, are rendered simply "a perfume." The Hindu women use the scented roots to ornament their hair. It is also employed in offerings to idols, and as a drug, for which purposes it is cultivated generally in gardens; but no one that I can discover, has seen it in flower.—V. remark on *Kárpuravalli*.

... The use of two words which are synonymous seems a pleonasm—W. 235 and 401—Care must be taken not to confound *Darbha* with *Dárbbā* W. 419 which is *Cynodon Dactylon*, v. p. 58.
... W. 240—Br. 259.

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
S K లఘు బ్రహ్మ చెట్టు.	Laghubrahmi chettu	...	TRIGONELLA CORNICULATA, L.—R. iii. 389—W. Ic. 384.	Laghu W. 714 & <i>Bráhma</i> , 609 among other meanings, are both stated to signify the plant specified.
S K లక్ష్మణవంజి చెట్టు.	Lakshmana panji chettu	This name occurs in two places in Part II. as the Tel. syn. 1st. of <i>Mohini</i> , W. 676, a kind of Jasmine & 2nd of <i>Lakshmana</i> W. 713, a kind of drug.
లక్ష్మీ నారాయణ చెట్టు.	Lakshminarayana chettu	...	CRINUM ASIATICUM, Herb. a. toxicarium—R. ii. 134.	A substitute for squill.
S K లక్ష్మీ తులసి.	Lakshmi tulasi	...	OCYIMUM. sp.	
S K లకుచము.	Lakuchamu, S.	...	ARTOCARPUS LACOOCHA, R. iii. 524—W. Ic. 681.	Br. 865—W. 713.
Br. లామజ్జకము—(వట్టివేరు.)	Lámajjakamu, S. (<i>V. Vattivēru</i>)	...	ANDROPOGON MURICATUS, Retz...	Br. 871—W. 719—Heyne, 130.
S K లొంకలి.	Lángali. S.	Br. 869, explains it to be "the forest tree <i>Gloriosa superba</i> !" but W. 719 says, "a name of several plants," also adding, <i>Gloriosa</i> & <i>Commelina</i> and the cocoanut tree.
లంజనవరము - (గొంబెము గొంపరు చెట్టు.)	Lanjasavaramu (<i>V. Gontema gomaru chettu</i>)	...	IPOMOEA FILICAULIS, Blum.—Convolvulus medium, R. i. 474—C. filiformis Thunb.—C. prostratus, Heyne, 139.	According to Heyne the Sans. syn. is <i>Pras-éran</i> but the explanation given in the Sans. Diet. to this word, is <i>Pæderia fetida</i> W. 579.
Br. లవలి.	Lavali	Br. 868, "a kind of creeper."
S K లవంకం.	Lavangam	...	MYRISTICA MOSCHATA, Thunb.—R. iii. 843; Br. 863.	M. aromatica, R Cor. 274.

S K లవంగపు చెట్టు.	Lavangapu chettu	Br. 868, under <i>Lavanga chukka</i> , inserts <i>Cassia lignea</i> (Laurus iners) on the authority of Ains.—but Ainslie gives this as the Tamil, not the Telugu term. <i>Lávu</i> is "thick, robust," & indicates a thick kind of cane.
లావు చెరుకు.	Lávu cheruku	SACCHARUM OFFICINARUM, var.	A kind of cane.
శేడికడి.	Lédi gadḍi	A kind of grass.
శేతకడి.	Létagaddi	A kind of grass.
S K లింకదొండ.	Linga donḍa	BEYONIA LACINIOSA, L.—R. iii. 728—W. and 1072; Ic. 500.— <i>Rheede</i> viii. 19.	Br. 873.
లింకమలై.	Linga malle	JASMINUM, sp.,	This name was given to a wild Jasmine which I neglected to identify at Vissannapéta.
లింగమరియం-(గురుగు.)	Linga miriyam (V. Gurugu)	CROZOPHORA FLICATA, Ad. Juss.	In Vizagapatam.
లింకపొట్ల-(పొట్ల.)	Linga poṭṭa (V Poṭṭa)	TRICHOSANTHES ANGUINA, L. var.	A variety so called from its short, thick pedo Br. 873.
లాడ్డుక.	Lodduga	SYMPLOCOS RACEMOSA, R. ii. 539.	Br. 878.—W. Loddurah, 724.
లోలుక-(నోలిక.)	Lóluga (V. Nóluka)	PTEROSPERMUM HEYNEANUM, Wall.—W. and A. 254; Ic. 489—P. suberifolium, R. ii. 160.	
లాటిపిట్లలి.	Lottipittali	ISOLEPIS ARTICULATA, Nees.—W. contr. 110. Scirpus art. R. i. 214.	It does not appear whence Pid. obtained this term.
పొకాడ.	Loukáda	BIGELONIA LASIOCARPA, W. & A. 1344—Spermacoce stricta. R. i. 370.	Br. 874. "The citron," so Br., but Heyne 135, calls it the clove orange and the citron he makes <i>Likucha</i> , but W. 720, Br. and SK. all make <i>Likucha</i> a syn. of <i>Lakucha</i> , q. v.
S K లుంకము-(దబ్బు చెట్టు.)	Lungamu, S. (V. Dabba chettu.)	CITRUS MEDICA, L. ...	

TELUGU NAME.		BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.		
మా ఖేరి - (చినరణఖేరి.) మా చివత్రి.	Mábhéri (<i>V. China ranabhéri</i>) Máchi patri	ANTSOMELES MALABARICA, R. Br.—W. Ic. 865 —Ajuga fruticosa, R. iii. 2. ARTIMISIA INDICA, Willd.—R. iii. 419—W. Ic. 1112.	It is also called <i>China rana bhéri</i> . Br. 762 writes <i>Mábhíra</i> . This is the <i>Dona</i> of Roxb. Voigt, and Royle ill., to which the latter also assigns the name of <i>Marua</i> , (<i>V. Maruvum</i>) which is from the Sans. <i>Damana</i> W. 399; another drug, called <i>Máchi parua</i> , but the latter word is not in W.
మదచెట్టు.	Maḍa chettu	AVICENNIA TOMENTOSA, L.—R. iii. 88—W. Ic. 1481.	
మదనఆనపచెట్టు (బొప్పా య.)	Madana ánapa chettu (<i>V. Boppáji</i>)	CARICA PAPAYA, L. ...	So called in Ganjam and Vizagapatam.
మదన - మొదిన.	1 Madana or Modina	SPERMATOCOE HISPIDA, L.—W. & A. 1348— R. i. 373; S. scabra i. 371—Rheede, ix. 76	Br. 741.
మదనబుడత కాడ.	2 Madana budata káda		
మదన గుంధి.	3 Madana grandhi		
మదన గుంటి (పొన్నగుంటి.)	Madana ganṭi (<i>V. Ponnaganṭi</i>)	ALTERNANTHERA SESSILIS, R. Br.	Under the preceding word, Br. 741, has <i>Pácht tige</i> as a syn. but it doubtless refers properly to this plant, which is a creeper growing near water, on the margin of tanks, &c.
మదన గింజలు - (అతస్ - అవి [శి.])	Madana ginjalu (<i>V. Alast & Avist</i>)	LINUM USITATISSIMUM, L.	... Linseed.

Br.	మదనము.	Madanam, S.	DATURA sp ? Br. 741 "a narcotic plant" with syna. <i>Unnetta</i> , <i>Duttire</i> , &c.—W. 636 "a plant commonly called <i>Mayana</i> , thorn-apple or <i>Datura</i> , &c."
	మదన శేకర - (ఆడవి పాలతీర.)	Madana sēku (<i>V. Adavipālātige</i> .)	CYRTOLPIS RETICULATA,	Wall. This name was used by the Hill people of Vizianagaram who make cordage and also a kind of cloth from the fibre.
H.	మదనము.	Madaphalamu	CITEUS, sp, Heyne, 57. (<i>V. Madāphala</i>)
	మడ్డి చెట్టు (మూలుగ చెట్టు.)	Madḍi chettu (<i>V. Mūluga chettu</i>)	MOBINDA, sp.— <i>M. tinctoria</i> ? The roots of a tree with this name are sold in the bazar as a red dye, and were sent to the Exhibition of 1855, so named, from Rajahmundry, Masulipatam, Bellary, Kurnul, Bangalore and Salem. We have seen the plant growing in black cotton soil but not more than 3 or 4 feet in height, being constantly dug up for the roots and therefore neither in flower or seed.—Br. 738—Ains. 182.
R.	మడ్డి చెట్టు.	Maddi chettu	TERMINALIA GLABRA, W. & A. 974—Pentaptera gl. R. ii. 440.	
SK	మడ్డిరుబ్బ చెట్టు.	Madḍi rubba chettu	ELEUSINE STRICTA, R. i. 343.	
SK	మాధవతీర.	Mādhavī tige	HIPTAGE MADABLOTA <i>Gertn.</i> —W. & A. 370; Br. 760. <i>Ill.</i> i. 50— <i>Gaertnera racemosa</i> , R. ii. 368; <i>Cor.</i> 18.— <i>Rheede</i> vi. 59.
SK	మధునీక.	Madhunika, S.	CARICA PAPAYA, L. Said to be a grass in S K. The word is not in Br. or W.
H.	మధునక-కం (బొప్పాయి.)	Madhurnakam (<i>V. Boppayi</i>)	BOERHAAVIA STELLATA R. W. Ic. 875	
	మద్దినిక - (గుజ్జక నైకోమలి.)	Madinika (<i>V. Gujja kanne kōmali</i>)	CITRUS MEDICA, L.—R. iii. 392—W. & A. Br. 760 <i>Mātulungah.</i> 344 var. 7.	
	మాదీఫల చెట్టు—(బీజపూరము.)	Mādīphala chettu (<i>V. Bijapurumu</i>)	ARGYREIA CYMOSA <i>Sut.</i> — <i>Lettsonia</i> cyn. R. i. 492.—W. Ic. 839. It is remarkable that although perhaps, the commonest of all the <i>Argyriae</i> in the Carnatic, it is stated in the Flora Ind. to be a native of the Malabar mountains and to have been raised from seeds from the Wynād. This long led me to doubt whether this <i>Madi</i> was the same plant, for Roxb. must have been familiar with it at Sāmulkōṭa, and it was not until I had sent a specimen to Dr Wight and got it named by him, that I adopted Roxb.'s designation. It is also to be observed that <i>Arg. aggregata</i> which Roxb. locates on the Coromandel coast, is confined to Mysore and mountainous tracts. It is possible he may have accidentally changed the habitat of the two sp.
	మాదీతీర.	Mādī tige

	నల్ల గిలిగిలిచ్చ.	Nallagiri gili gichcha	... CROTALARIA LINIFOLIA, <i>L.</i> —W. and A. 589— <i>C. cœspitosa</i> , R. iii. 269.	So called from the ovoid, black legume— <i>nalla</i> black, <i>giri</i> round.
	నల్ల గినియా.	Nalla giniya	Occurs in SK. as the equivalent of <i>Katabhi</i> which W. 180, makes to be <i>Cardiospermum Halicacabum</i> —also <i>Clitoria</i> .

నల్ల సులివిండ- (సులివిండ)	Nalla guli viinda (V. Gullvinda)	... ABBUS PRÆCATORIUS, L. γ. melanospermus ...	Roxb. ii. 292, applies the same name to <i>Car. diospermum Halicacabum</i> , the seeds of which are black with a white spot, very like the seeds of <i>Abrus precatorius</i> . The Sans. syn. is <i>Mahā bhringah</i> or great <i>Eclipta</i> , not in W.
S K. నల్ల సుంటకలకర (సుంటకలకర.)	Nalla gunṭa kalagara (V. Gunṭa kalagara)	... ECLIPTA sp. ?	...
S K. నల్ల ఈశ్వర.	Nalla śwara	... ARISTOLOCHIA ACUMINATA, Lam.—R. iii. 439.	I conjecture this to be the plant referred to in SK, from its dark greenish purple flowers.
నల్ల జీడిచెట్టు- (జీడిచెట్టు.)	Nalla jīḍi cheṭṭu ? (J. Jāḍi cheṭṭu)	SEMERCARPUS ANACARDIUM, L.—R. ii. 83; Cor. 12—W. and A. 523; Ic. 558.	<i>Jilaharra</i> or <i>Jira</i> is cumin, black or <i>Kāḷa jira</i> is our plant.
నల్ల జీలకర్ర.	Nalla jīla karra	... NIGELLA SATIVA, L. δ Indica, DC.	This application is made from the dark color of the flowers. We follow Hamilton in identifying this sp. with <i>C. Hamiltonii</i> , R. II.
నల్ల జిల్లేడు- (జిల్లేడు.)	Nalla jillēḍu (V. Jillēḍu)	... CALOTROPIS PROCEBA, R. Er.
నల్ల జీలుక.	Nalla jīluga	... CASSIA PUMILA, Lam.—W. and A. 904—Senna prostrata, R. ii. 352.	...
B. నల్ల కాకముష్టి.	Nalla kāka muṣṭi ?	... DIOSPYROS sp.—D. SYLVATICA, R. ?	A doubtful name. <i>Musli</i> is <i>Strychnos</i> —Mr. Beddome adds, "only found in fruit, D. <i>sylvatica</i> ?" V. Gāla, p. 58.—It is more probably <i>D. cordifolia</i> . V. <i>Kāka ulimera</i> and <i>Nalla ulimera</i> .
నల్ల కాకర.	Nalla kākara	... MOMORDICA sp. ...	From Kondavid.
నల్ల కాకసి (దేవతామల్లె.)	Nalla kākasi (V. Devatā malle)	... RANDIA ULIGINOSA, DC.	...
S K. నల్ల కలువ.	Nalla kaluva	... NYMPHÆA STELLATA, Willd.—W. and A. 55; Ic. 178—R. ii. 579; N. cyanea, 577.	Niṭṭipalam, W. 486.
S K. నల్ల కామంచీ (కామంచీ.)	Nalla kāmānchi (V. Kāmānchi)	... SOLANUM RUBRUM, Mill.—β. melanopyrenum.	...
నల్ల కాశన.	Nalla kāśana	... ORMOCARPUM SENNOIDES, Beauv.—W. and A. 672; Ic. 297—Hedysarum sen. R. iii. 216.	...
నల్ల కవని.	Nalla kavani	... DIERBMA BIARTICULATUM, DC.—W. and A. 710; Ic. 419—Hedysarum bi. R. iii. 356.	...
నల్ల కొక్కి-త.	Nalla kokkita	... IPOMOEA OBSCURA, Ker—Conv. obs. R. i. 472.	...
నల్ల మడ- (మడ.)	Nalla maḍa (V. Maḍa)	... AVICENNIA TOMENTOSA, R. iii. 88.	...
నల్ల మద్ది.	Nalla maddi	... TERMINALIA TOMENTOSA, W. and A. 972; Ic. 195.—Pentaptera tom. R. ii. 440.	The bark dyes black.

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
B. నల్లమంఁ.		...	BANDIA sp.	Perhaps <i>B. uliginosa</i> .
S K. నల్లమర్రి.		...	FICUS ?	...
S K. నల్లములు గోరంట.		...	BARLERIA OBOVATA, L.— <i>B. buxifolia</i> , R. iii. 37.	The syn. is <i>Saityaka</i> , W. 944.—Common in Mysore and Malabar with pinkish violet flowers: another variety occurs in Guntur with pure white flowers. V. <i>Tella mula gōraṇṭa</i> .
S K. నల్ల నేలగుమ్మడు - (భూచక్రకడ్డ.)		Nalla nēla gummudu (<i>V. Bhūchakra gaḍḍa</i>)	BATATAS PANICULATA, Ch. ?	
నల్లనీలాంబరి.		Nalla nīlāmbari	ERANTHEMUM NERVOSUM, R. Br.— <i>E. pulchellum</i> , R. i. 111; <i>Justicia pul. Cor.</i> 177.	
S K. నల్ల నీపద్మం.		Nallani padmam	EURYALE FEROX, <i>Satish.</i> ;— <i>Nymphoca stellata</i> Willd. ?	<i>Nallani padmam</i> is a black or purple lotus. The only species answering to this description is <i>Euryale ferox</i> , which however is unknown in the South, but it is only given in SK. as a syn of the Sans. word <i>Padma</i> .
నల్లపక్షపపుచెట్టు (నల్లపురుగుడు.)		Nalla pagadapu chettu (<i>V. Nalla puruguḍu</i>)	ANISONEMA MULTIFLORA, R. W.	
నల్లపల్లెరు - (నీలిపల్లెరు.)		Nalla pallēru (<i>V. Nīli pallēru</i>)	INDIGOPERA ECHINATA, <i>Willd.</i> —R. iii. 371— <i>W.</i> and <i>A.</i> 617; <i>Ic.</i> 316.	
S K. నల్ల పెద్దగోరంట.		Nalla pedda gōraṇṭa	BARLERIA CRISTATA, L.—R. iii. 87— <i>W.</i> <i>Ic.</i> 453.	
నల్ల పెనలు - (పెనలు.)		Nalla pesalu (<i>V. Pesalu</i>)	PHASEOLUS MUNGO, L.—β. <i>melanospermus</i> — <i>Ph. Max. R.</i> (not <i>L.</i>) iii. 295.	
నల్ల పొణకు.		Nalla poṇuku	PELTOPHORUS MYURUS, <i>Blain.</i> — <i>Manisurus my.</i> <i>R.</i> i. 351; <i>Cor.</i> 117.	
నల్ల పులుగుడు.		Nalla puluguḍu	ANISONEMA MULTIFLORA, R. W.— <i>Phyllanthus</i> thus mul. <i>R.</i> iii. 664— <i>Rheed.</i> x. 27.	Fruit black. The reference to <i>Rheede</i> is <i>Wights</i> . <i>Dillwyn</i> assigns the figure to <i>Ph. reticulatus</i> .
నల్ల పురుగుడు.		Nalla puruguḍu		

నల్ల పువ్వుల నీరు.	Nalla puuvula nūru	... ALLIUM, <i>sp.</i>	The words mean black-flowered onion.
R నల్ల పుటికి.	Nalla putiki
నల్ల రంతు.	Nalla rantu	This was the name given by the Konda Dorulu at Sinhāchalam to a very pretty sp. with pale blue flowers. I am not sure whether it was an <i>Endopogon</i> or a <i>Stenisi phonium</i> .
నల్ల రేగు.	Nalla régu
SK నల్ల సుగంధి పాల.	Nalla sugandhi pāla	The flowers are always dark purple or blackish but there are several well marked varieties.
నల్ల తపేట.	Nalla tapeta	Br. under <i>Nela tappeta</i> 389, has "name of a tree" and adds the syn. <i>Grishma sunda</i> .
SK నల్ల తెగడా-(తెగడ.)	Nalla tegada (<i>V. Tegaḍa</i>)	Br. under <i>Nela tappeta</i> 389, has "name of a tree" and adds the syn. <i>Grishma sunda</i> . <i>ramu</i> , which W. 306, explains to be a kind of pot-herb, quoting <i>Erythraea Chironia</i> , <i>centauroides</i> !—Wight contr. 27, considers <i>Sonch. Orix.</i> and <i>oleraceus</i> to be the same— <i>Tappeta</i> is <i>Asystasia</i> . q. v.
నల్ల తీగె-(ఇలుక కై.)	Nalla tige (<i>V. Illu kaitte</i>)	Black tegada. The Sans. syn. given is <i>Pálin-da</i> which according to W. 531, is <i>Jasminum pubescens</i> ; <i>Pálin-di</i> is explained to be <i>Teori</i> and <i>Palindhi</i> to be the black <i>Teori</i> . <i>Teori</i> occurs in Pid. Ind. in Speede's calendar and in Voigt, as the Hindu name of <i>Iponoea Turpethum</i> . <i>Teori</i> is also the Hindi name of <i>Lathyrus sativus</i> , the expressed oil of the seeds of which, is according to O'Sh 317, a powerful purgative, and as it has large blue flowers, the similarity of the name may have led to the use of the term black or <i>Nalla tegada</i> , the root of <i>Ip. Turpethum</i> possessing similar qualities.
నల్ల తుమ్మి.	Nalla tumiki (<i>V. Tummika</i>)	ICHNOCARPUS FRUTESCENS, <i>R. Br.</i>
నల్ల తుమ్మి.	Nalla tumma,	Br. 428. under <i>Tubiki</i> , has <i>Karra tumiki</i> , "ebony," but goes on to refer to <i>Embragopteris</i> . The name in the text probably refers to <i>D. Melanoxydon</i> .
నల్ల వాల్లు.	Nalla vāllu	Br. 428. Jour. As. Soc. Calc. vi. 392.
నల్ల వండిక.	Nalla vandi	Sans. syn. <i>Krishnika</i> .
SK నల్ల వట్టి వేరు-(వట్టి వేరు.)	Nalla vatti véru (<i>V. Vatti véru</i>)	A name given by the Konda Dorulu to an undetermined tree at Sinhāchalam. The syn. in Pt. II., <i>Jakāyāh</i> , W. 345, is stated to be <i>Khashhas</i> .

TELUGU NAME.		BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.		
S K. నల్ల వాటిలి.	Nalla vāvili	VITEX NEGUNDO, L.—R. iii. 70—W. Ic. 519— <i>Rheede</i> . ii. 12.	
S K. నల్ల వేసిస—(వేసిస.)	Nalla vēṣisa (<i>V. Vēṣisa</i>)	PTEROCARPUS sp.	
S K. నల్ల విష్ణు క్రాంత - (విష్ణు క్రాంత.)	Nalla viṣṇu krānta (<i>V. Viṣṇu krānta</i>)	EVOLVULUS ALSINOIDES, L.	
నల్ల ఉడత—(బలికొమ్మ.)	Nalla uḍata (<i>V. Bali komma</i>)	1. CANSJERA RHEEDII, Gm.—W. Ic. 1861.— <i>C. scandens</i> , R. i. 441; <i>Cor</i> . 103.— <i>Rheede</i> . vii. 2-4. 2. OPIA AMENTACEA, R. ii. 87; <i>Cor</i> . 158.	This name is applied to both plants by the Konda Dorala.
నల్ల ఉడుగు—(ఉడుగు.)	Nalla uḍuga (<i>V. Uḍuga</i>)	ALANGIUM HEXAPETALUM, Lam.—W. Ic. 194; <i>Ill</i> . 96.— <i>Rheede</i> . iv. 26.	This name was given to specimens from Kondavid. It is probably the same as <i>Rheede's Karangolan</i> which Dillwyn identifies with <i>A. hexapetalum</i> , Lam (not Willd.) Are they different? V. Wight III. ii. 2.
నల్ల ఉలిమెర (కాక ఉలిమెర.)	Nalla ulimera (<i>V. Kāka ulimera</i>)	DIOSPYROS CORDIFOLIA, R.	
S K. నల్ల ఉమ్మెత్త.	Nalla ummetta	DATURA FASTUOSA, <i>Mill</i> .—R. i. 531—W. Ic. 1396.	
నల్ల ఉప్పి.	Nalla uppi	CAPPARIS SEPIARIA, L.—R. ii. 568—W. and A. 92.	Br. 105 under <i>Uppi</i> quotes this name and also <i>Monetia</i> which is <i>Tella uppi</i> adding a "thorny, medicinal, styptic shrub, with a ligneous, hollow fruit or gall, as large as a nutmeg" and gives as a syn. <i>Monkika phala</i> .
నల్ల ఉరిమిడ (నల్ల ఉలిమెర)	Nalla urimiḍa (<i>V. Nalla ulimera</i>)	DIOSPYROS CORDIFOLIA, R.	
నల్ల యిరుగుడు చెట్టు.	Nalla yiruguḍu chettu	DALBERGIA LATIFOLIA, R. iii. 221; <i>Cor</i> . 113—W. and A. 814; <i>Ic</i> . 1156.	<i>D. latifolia</i> is called <i>Suēla sāl</i> i. e. white <i>Sāl</i> in N. India. The <i>Krishna sinsupa</i> which is the syn. of <i>Nalla yiruguḍu</i> in SK. seems to refer to another species. <i>V. Patata yiruguḍu chettu</i> , but the Tel. name exactly corresponds with its Eng. syn. "black-wood".

TELUGU NAME.			BOTANICAL NAME.	REMARKS.
Vernacular Character.	Roman Character.			
నేలపాల-(చిరిపాల.)	Néla pála, (V. Chirí pála)	...	OXYSTELMA ESCULENTUM, R. Br.	...
P. నేలపిప్పలి.	Néla pippali.	...	ZAPANTIA NODIFLORA, Lam.—Rheede x. 47.	This is applied to a variety common about Bejawáda, running along the surface, which we never found in flower.
SK. నేలపోక.	Néla póka	...	CALAMUS ERECTUS, R. iii. 774	...
Br. నేలపొన్న.	Néla ponna	...	CASSIA sp.	The words mean, "ground areca" and the botanical name is assigned conjecturally, the seeds of <i>Cal. erectus</i> being used for betel-nut.
నేలసంపెంక-(వేరసంపెంక.)	Néla sampenga (V. Véru sampenga)	...	POLYANTHES TUBEROSA, L.—R. ii. 163.	Br. 682, says <i>C. senna</i> —Rheede ii. 52, has <i>Pouina tagara</i> for <i>C. Sophora</i> Br. 1005.
నేలతాడి.	Néla tādī	...	CURCULIGO ORCHIOIDES, Gaertn.—R. ii. 144; Br. 514. Cor. 13—Rheede xii. 59.	...
నేలతంగేడు.	Néla tangeḍu	...	CASSIA ORTUSA, R. ii. 344.—W. and A. 891—W. Ic. 757.	...
నేలతప్పిడ-(నేలచెప్పడు)	Néla tappiḍa (V. Néla cheppuḍu)	...	ELYTRARIA CERNATA, Vahl.	...
నేలవాకుడు-(నేలములక.)	Néla vākuḍu (V. Néla mulaka)	...	SOLANUM JACQUINI, Willd. β	Fruit smaller, yellow.
నేలవామింల - (కుక్క-వామింల.)	Néla vāmiṇṭa (V. Kukka vāmiṇṭa)	...	POLANISIA ICOSANDEA, W. & A.	It may also refer to the smaller sp. of <i>Cleome</i> and would be especially applicable to <i>C. Burmanni</i> .
నేలవాచిలి.	Néla vāvili	...	GENDARUSSA VULGARIS. Nees.—W. Ic. 468.—Justicia Genq., R. 1. 128—Rheede ix. 42.	<i>Gandharasa</i> Sans. literally "essence of smell or perfume." The word does not appear to signify any particular flower. It occurs in Rumph. Amboina. iv. tab. 28. whence it has been adopted by Linné, Willd. and others. Roxb. applied the word to the incense obtained from <i>Poswellia serrata</i> the <i>B. thurifera</i> of Colebr.

సంకెలక్ష- (వెలగ.)	నెలా వెలాగ (V. Velaga)	FEONIA ELEPHANTUM, Corr. Var.
నెలవేము.	Néla vému	...	ANDROGRAPHIS PANICULATA, Wall.—W. Ic 518. —Justicia pan. R. i 117.—Rheede, ix. 56.	... This var. is common in and about villages. It is a small shrub, with the petioles much winged.—Br. 793.
నెలకసిరిక.	Néla usirika	...	PHYLLANTHUS NIRURI, L.—R. iii. 659.—W. Ic. 1894.—Rheede, x. 15.	According to Roxb. <i>P. Madraspatensis</i> is also called <i>Néla</i> or <i>Nalla usirika</i> . Br. 512 refers to <i>Usirika</i> or <i>Emblica</i> and <i>Phyllanthus</i> confounding the Tam. with the Tel. name.
నెల్లె చెట్టు.	Nelli chettu	{	1. PREMNA ESCULENTA, R. iii. 81. 2. PREMNA LATIOLIA, R. iii. 76.—W. Ic. 869.	
P. నెమలి శిఖ (మయూర శిఖి.)	Nemali síkha (V. Mayúra síkhi)	...	ACTINOPTERIS RADIATA, ...	<i>Adiantum melanocaulon</i> , Pid Ind.
S K నెమ్మి చెట్టు.	Nemmi chettu	...	DALBERGIA OOOJENENSIS, R. iii. 220.—W. Ic. 391.	Br. 509 and 1246.—Sans. <i>Timish</i> in SK., which in W. is <i>D. Oojeinensis</i> .
నెపాలం.	Népalam	...	JATROPHA CUECAS. L.—R. iii. 686.	
నెపాల వేము.	Népála vému	The exact translation of this name is "bitter <i>Croton</i> ." The Sans. syn. is <i>Jwarántaka</i> , which in W. who renders it <i>Medicago esculenta</i> is <i>Jwarápak</i> , p. 356, lit. "fever removing." The only plant answering this description is <i>Croton Cascarella</i> of S. America. The name would indicate the existence of a plant with similar properties in India. Some kinds of <i>Phyllanthus</i> have bitter roots, but are only used as diuretics. <i>Croton</i> and <i>Jatropha</i> possess drastic but not antifebrile properties.
నెరసి-నెరసి-(నిరజ.)	Nerasi or Nirasi (V. Nirija)	...	ELCÆODENDRON ROXBURGHII, W. and A.	Br. 510 gives the syn. <i>Alakshmi</i> "the name of a plant"; not in W.; neither do any of the syns. in SK. occur in W. as names of plants.
నెరవంజి చెట్టు-(నరవంజి)	Neravauji chettu (V. Nara vanji)	
నెరేడు.	Nérédu	...	EUGENIA (Syzgium) JAMBOLANA, Lam.—R. ii. 484.—Syzgium Jam. W. and A. 1015.—W. Ic. 535; Ill. ii. p. 16.—Rheede v. 29.	
నెరిజమాను-(నెరసి.)	Nerija mánu (V. Nerasi)	...	ELCÆODENDRON ROXBURGHII, W. and A.	
నెరింఱ.	Nerinda	This word seems to be an incorrect form used for <i>Nerija</i> and some times for <i>Nérédu</i> .
నెతివీర-(నూనెవీర.)	Néti bíra (V. Nāne bíra)	...	LUFFA PENTANDRA, R. iii. 712.—W. and A. 1064.—W. Ic. 499; Ill. ii. 51.	

TELUGU NAME.		BOTANICAL NAME.		REMARKS.
Vernacular Character.	Roman Character.			
నేతిదొండ (తియ్యదొండ.)	Néti donḍa (V. Tiyya donḍa)	...	BRYONIA UMBELLATA, Klein—W. and A. 1077— <i>Momordica</i> umb. R. iii. 710— <i>Karivia</i> umb. W. Ill. ii. 30— <i>Rheede</i> viii. 23.	Br. 1246 has <i>Cesalpinia Bondu</i> and some Tel. syns. which do not apply. W. 486 <i>nivara</i> .
నెవవేడి.	Neva lēdi	VITEX LEUCOXYLON, R. iii. 74—W. Ic. 1467— <i>Rheede</i> iv. 36	
నెవలిఅడుగు.	Nevali aḍugu	VITEX ARBorea, R. iii. 73—W. Ic. 1465— <i>Rheede</i> , v. 2.	
నెవరి ధాన్యము - (నివ్వరి ధాన్యము)	Nevari dhānyamu (V. Nivari dhānyamu)	...	OXYZA SATIVA, L. Willd. var. ...	
నీద్రకంఠి.	Nidra kaṇṭi	DESMANTHUS TRIQUETRUS, Willd.—W. and A. 836—W. Ic. 756— <i>Mimosa</i> triq. R. ii. 552.	
నీలాంబరం.	Nīlāmbaram	BARLERIA CœRULHA, R. iii. 39. ...	The name is applied both to the blue <i>Barlerias</i> and to some species of <i>Eranthemum</i> .
నీలిచెట్టు.	Nīli chettu	INDIGOFERA TINCTORIA, L.—R. iii. 379—W. and A. 633—W. Ic. 365— <i>Rheede</i> i. 54.	
నీలిపల్లెరు (నల్లపల్లెరు.)	Nīli pallēra (V. Nalla pallēru)	...	INDIGOFERA ECHINATA, Willd.	
నీళ్లమీదబలిసిపాకేమార.	Nīḷa mīda balisi pakē kūra	Literally "Thick plant creeping on the water" and may apply to any aquatic thick leaved plant used as a pot herb, as <i>Jussiaea repens</i> . Like the last without the qualifying term "thick" Q. <i>Ipomœa reptans</i> ? R. i. 482. i. e.: "upright or standing yam" from its oblong tubers.
నీళ్లమీదపాకేతీర.	Nīḷa mīda pakē tīge	
నీలుపు నెండలం.	Nīluvu penḍalam	DIOSCOREA ALATA, L.—R. iii. 797—W. Ic. 810— <i>Rheede</i> , vii. 38.	
నీంబము (వేప.)	Nimba S. (mu) (V. Vēpa)	...	AZADIRACHTA INDICA, Ad. Juss.	A doubtful name. Common or <i>Bergamotte</i> lime.
నీమిరి.	Nimiri	TERMINALIA PANICULATA, W. and A. 974— <i>Pentaptera</i> pan. R. ii. 442.	
నీంప.	Nimma	CITRUS BERGAMIA Risso and Poit var. α. R. iii. 390—W. and A. 344. var. β.	
నీంప X డి - (చిప్ప X డి.)	Nimma gaddi (V. Chippa gaddi)	...	ANDROPOGON SCHENANTHUS L.	

నిండుటాయి.	Nimma táyí	...	CEROPEGIA BULBOSA, R. ii. 27; Cor. 7—W. Ic. 845.	The Yándáís and Chenchús eat the roots to which they gave this name.
Br. నిండుతులసి.	Nimma tulasi	...	OCIMUM GRATISSIMUM, L. ?	Br. 493 says, a sp. of <i>Tulasi</i> with the scent of a lemon.
S K నిష్పలవన్నె క్రాసుక.	Nippula vanne kránuga	...	PONGAMIA sp.	<i>P. uliginosa</i> , or <i>Butea superba</i> ? The word means "fiery-red color," and indicates a species with flaming bright flowers. Q. <i>Wayateca spicata</i> ?
నీరల్లి-(నక్కె-న.)	Niralli (V. Nakkenna)	...	CANTHIUM DIDYMIUM, Gertn.	
నీరారుక.	Níráruga	...	PASPALUM SCROBICULATUM, L.—β Kora—P. Kora. R. i. 274.	
నిరిజ-(నీర.)	Nirija (V. Bira)	...	ELAEODENDRON ROXBURGHII W. and A. 492—W. Ill. 71—Nerija dichotoma R. i. 646.	The name <i>Bira</i> is very doubtful, it was only found at Palamanair. The root of this tree is much prized as a cure for snake-poison, apparently not without some reason.—Br. 502.—O'Sh. 271.
P. నీరుఅగ్ని వేండ్ర పాకు.	Níru agni vëndra páku,	...	JUSSEUA VILLOSA, Lam.—W. and A. 1041—J. exaltata, R. ii. 401—Rheede ii. 50.	The propriety of this rendering which is taken from Pid. Ind. is doubtful. The word means "the burning leaf growing in water" and is properly <i>Ammania vesiculosa</i> V. Pt. i. p. 12.
P. నీరుబచ్చలి.	Níru baichali,	...	JUSSEUA REPENS, L.—R. ii. 401—W. and A. 1040.	
Br. నీరుబొడ్డి-(బొడ్డి.)	Níru boddí, (V. Boddí)	...	RIVEA HYPOCRATERIFORMIS, Ch.	
నీరుబుడికి(అంతరతామర)	Níru budiki, (V. Antara támará)	...	PISTIA STRATIOTES, L.	
నీరుచిక్కుడు.	Níru chikkudu,	...	LABLAB sp.	
నీరుచిర్రి.	Níru chirri,	...	CENTROSTACHYS AQUATICA, Wall.—W. Ic. 1780. Achryanthes aq. R. i. 673.	The Syn. in SK. is <i>Márkshah</i> which according to W. 658 is <i>Amuranthus oleraceus</i> .
SK నీరుకన్నెరు.	Níru gannéru,	...	1. POLYGONUM BIVULARE, Kon.—R. ii. 290. 2. POLYGONUM GLABRUM, Willd.—R. ii. 287—W. Ic. 1799.	The name is applied to any narrow leaved sp. The syn. <i>Nichulab</i> , according to W. 466, is <i>Earringtonia acutangula</i> .
R. నీరుగిలిగిచ్చ.	Níru gili gich cha	...	3. HYDROCERA TRIFLORA, W. and A. 463.— Impatiens natans. R. i. 652.	
నీరుగొబ్బి.	Níru gobbi	...	CROTALARIA QUINQUEFOLIA, L.—R. iii. 279—W. and A. 606—Rheede, ix. 28. ASTERACANTHA LONGIFOLIA, Nees.—W. Ic. 449—Ruellia lon. R. iii. 50—Rheede ii. 45.	

TELUGU NAME.		Roman Character.	BOTANICAL NAME.	REMARKS.
Vernacular Character.				
Br. నీరుగోరంట - (నల్ల పెద్దగోరంట)	...	Nīru gōraṇṭa (V. Nalla pedda gōraṇṭa)	BABLERIA CRISTATA, L.— <i>B. rosea</i>
SK నీరుఇప్ప.	...	Nīru ippa
Br. నీరుజీలుగ (జీలుగ.)	...	Nīru jiluga (V. Jiluga)	ÆSCHYNOMENE ASPERA, L.	...
R. నీరుకాచ.	...	Nīru kācha	PONTERERA VAGINALIS, L.— <i>R. ii. 121</i> ; <i>Cor. 110—Rheede xi. 44.</i>	A doubtful name from Roxb.
Br. నీరుపాడి.	...	Nīru pādī	...	Br. 502.
SK నీరుపాది.	...	Nīru pādī	BERGIA VERTICILLATA, Willd.— <i>R. ii. 456</i> ; <i>B. aquatica, Cor. 142—Rheede ix. 78.</i>	Br. 502 "A plant called <i>Kāṇṭō?</i> " which is not in W.
R. నీరుపప్పలి.	...	Nīru pāppali	PONGATIUM INDIGUM, Lam.— <i>Sphenoclea Zeylanica. R. i. 507.</i>	The genus delights in marshy plains but <i>C. Rotang</i> especially.
SK నీరుప్రబ్బ - పెత్తము.	...	Nīru prabba, (V. Bettamu)	CALAMUS ROTANG, L.	This name is hardly admissible. It rests on Roxb.'s authority alone.
R. నీరుతామర.	...	Nīru tāmara	PONTERERA HASTATA, L.— <i>R. ii. 121</i> ; <i>Cor. 111</i>	The common cultivated species requires plentiful watering, but there is no sp. that we know which grows in water.
నీరుతోటకూర.	...	Nīru tōṭa kūra	MARANTHUS, sp.	Ebenaceous tree frequenting water? Its syn. in SK, is <i>Dirgha putraha. W. 406</i>
SK. నీరుతుమికి - (నీటితుమికి - పీరుతుమికి.)	...	Nīru tumiki, (V. Nīṭi tumiki and ērutumiki)	DIOSPYROS, sp.	"a thorny plant—a kind of <i>Bassia</i> growing in marshy places."
R. నీరుతలవపు.	...	Nīru talavapu	DESMODIUM NATANS, Willd.— <i>W. and A. 835.</i> — <i>Mimosa nat. R. ii. 553</i> ; <i>Cor. 119.</i>	<i>Nir tavi</i> means "touching the water" referring to the habit floating characteristic of this plant. The name is only found in Roxb.
నీరువంగ.	...	Nīru vanga	SOLANUM MELONGENA, L.— <i>S. longum, R. i. 567.—Rheede. x. 74.</i>	This well known variety is under culture at all seasons and requires much water, hence the name.

R.	నీరు వెనికి.	OTTOLIA ALISMOIDES, Pers.—Damasonium Indicum, R. ii. 216; Cor. 185.—Rheede, xi. 46.	This name rests solely on Roxb's authority and does not seem to be right. We have heard the plant called <i>Gurrapu dehta</i> .
	నీటికన్నేరు-(బక్కపట్టె)	Nñfi gannēru (V. Bagga patfi)	...	LIMNOPHILA BACEMOSA, Benth. ...	This name was in use at Anakápalé near Vizagapatam. It will apply to any aquatic plant with long narrow oleander-like leaves.
	నీటితుమికి - (నీరుతుమికి- ఏరుతుమికి.)	Nñfi tumiki, (V. Nñru tumiki and <i>Eru tumiki</i>)	...	Diospyros, sp. ...	So called by the Konda Doralu but we never obtained a specimen in flower.
	నిత్యమల్లె (అడవినిత్యమల్లె)	Nñyamalle, (V. Adavi nitya malle)	...	HIBISCUS HIRTUS, L. ...	Br. 494—who derives the name from the plant flowering all the year round.
	నివరిఠాన్యము (నెవరిఠాన్యము.)	Nivari dhányamu (V. Nevari dhányamu)	...	Oryza, sp. ...	
	నోలిక - (లోలుక.)	Nólíka (V. Lóluga)	...	PTEROSPERMUM HEYNIANUM, Wall. ...	
R.	నూగు పెండ - (తుత్తురు పెండ.)	Nūgu benḍa (V. Tuttururu benḍa)	...	ABUTILON INDICUM, G. Don.—W. and A. 205; —A. Asiaticum, W. and A. 206.—W. Ic. 12—Sida Indica, R. iii. 179; S. populifolia, R. iii. 179—Rheede, vi. 65.	The natives make no distinction between these sp.; and we believe them to be identical.
	నూగుచిక్కుడు.	Nūgu chikkuḍu	...	DOLICHOS GLUTINOSUS, R. iii. 312—W. and A. 764.	Nūgu meaning rough, hairy, pubescent, this name is more appropriate to <i>D. tomentosa</i> , which however differs but little from the other.
	[మ.]				
	నూగుదోస - (కూతురుబుడ)	Nūgu dōsa, (V. Kūturu buḍama)	...	BRYONIA SCABRELLA, L. ...	Many sp. of <i>Grewia</i> yield a valuable fibre. The syn. of this sp. in SK. is <i>Vishánika</i> .
SK	నులితి - (స్యామలి.)	Nuliti, (V. 'Syámali)	...	ISORA CORYLIFOLIA, Sch. and Endl. ...	The syn. of this sp. in SK. is <i>Vishánika</i> .
	నులితడపెట్టు.	Nuli taḍa chettu,	...	GREWIA, sp. ...	which in W. 792 is said to be <i>Mésa sringsi</i> the fruit of which is compared to a ram's horn. This may indicate a kind of <i>Asclepiad</i> or <i>Apocynaceae</i> plant as <i>Cryptolepis Buchananii</i> which also yields a good fibre. Br. 504, has <i>Helicteres Isora</i> .
	నూలు చేక - (అంతరవల్లి.)	Nūlu tēga, (V. Antaravalli)	...	CASSYTA FILIFORMIS, L.—R. ii. 314—Rheede, vii. 44.	The syn. in SK. is <i>aktása valle</i> which name it still retains in Bengal—V. Voigt.
